BELL OF MOSCOW.

The Greatest one Ever Made
and Rung on Earth.

Moscow, Sept. 22.—Nowhere else in all the world is there a single inclosure that contains so much of interest as the Kremlin at Moscow. Within its walls, for a thousand years, has resided the head of the Russian government and the Russian church; from it had proceeded all civil, military and religious authority in the greatest despotism that ever existed, and in it have been hatched and carried out the bloodiest conspiracies that have ever defaced the history of civilized men. It saw the end of Napoleon's endeavors to make himself dictator of Europe. He came there filled with pride and glory and purpose; he left a defeated and broken-hearted man. To me the most interesting historical object in all Europe is a simple shaft of granite which rises from the roadside near the town of Wilna on the western boundary of Russia. It bears two inscriptions in the Russian language. On that side of the shaft which faces the West are these words:

Napoleon Bonaparte Passed This Way in 1812 With 4,000 Men.

On the other side, facing the East:

Napoleon Bonaparte Passed This Way in 1812 With 9,000 Men.

The history of the most disastrous military campaign ever undertaken is told in those two sentences.

Kremlin is the Russian term for citadel. There is a Kremlin in nearly every Russian city. The Kremlin at Moscow occupies the summit of a hill rising from the center of the town and is surrounded by an ancient and picturesque wall, which was built many centuries ago. Within the inclosure are the palace of the Czar, the headquarters of the government, the residences of the ministers, the headquarters of the army, with the garrison of the city, four or five churches, the ecclesiastical department and a number of museums, picture galleries, armories and various other buildings.

Lying on either side of the roadway are 875 cannon of various sizes, all of which were captured from Napoleon's army in 1812, or were abandoned by him in his flight. He did not capture a single gun. In the palaces, museums, armories and churches are thousands of French flags taken at the same time.

One of the most interesting objects to strangers is the Great Bell of Moscow, which, you will remember, is described in the geography you studied when you were a child. It is called the "Tsar-kolok"—the king of bells—and was cast in 1553. The clapper was moved by twenty-four men. On the 19th of June, 1706, the tower in which it was suspended caught fire and it fell to the ground. It was so heated by the flames that, when water was poured upon it, a large chunk dropped out, and it has never been repaired. Its present weight is 444,000 pounds, its height 29 feet 4 inches, its circumference 67 feet 11 inches, its maximum thickness 2 feet, its diameter at top 8 feet 6 inches on the outside and 6 feet 5 inches on the inside. The weight of the broken piece is eleven tons.—Wm. E. Curtis, in Chicago Record-Herald.

NOTICE.

Georgia, Lumpkin County:

To all whom it may concern:
I, J. J. Shel, as administrator of the estate of John Turner, late of said county, deceased, have applied to the ordinary of said county for leave to sell the lands of said deceased lying in Lumpkin county. Said application will be heard by the ordinary of said county of Lumpkin on the 1st Monday in November next and if no good cause to the contrary is shown an order will be passed granting the undersigned leave to sell said land as the law provides. This the 8th day of October, 1901.

J. J. SHEL, Admin'r of JOHN TURNER, dec.

House & Lot

For cold and sore throat see Keeney's Cherry Leaf Laxative Candy. Easily taken as candy and very effective.

The Opening Up of the South.

We are to see the near future a great change in the distribution of immigrants in this country. For a quarter of a century the tides have been flowing to the West and the Northwest, but great numbers are henceforth sure to go to the South. This rich part of our country rich in the way of minerals and soil has attracted far more people from other sections than it has settlers from Europe. Several facts explain the reason. In the first place, the trans-continental railroads have their agents busy at work in Europe, and have operated in connection with the steamship companies. The immigrant in buying his ticket in Europe, generally bought to some Western or Northwestern point. Another thing was the large number of lynchings in the South, which, being reported in European newspapers, gave the impression that in the Southern States life was not secure and property was not protected.

These influences are passing away. The South itself has been taking steps to show how false the general inference is. As a matter of fact people live as securely in the Southern States as in any other section of the world. The few cases of lynchings are horrible, but they do not portray the actual conditions of the different States of the south.

The industrial branches have done a superb service in showing the opportunities open in the South, especially in usefulness in this direction. But best of all, probably, in the way of manufacturing, and they are still adding to their business men from Northern and Western sections. Go to a Southern city to-day and you will find these men not only making money rapidly but taking active part in the social and political life, too, the large profits which the cotton mills and other factories are making will attract greater measure those who have money to invest and those who wish to utilize the opportunities.

The South will show that it can produce practically every thing that the West Indians are raising, and that it can show manufacturing products equal to the best of the North.

The exposition at Atlanta years ago was a success in demonstrating to the country the beginning of the new life of the south. Bad management made the New Orleans Exposition a failure, but the other expositions that followed it had their share of prosperity, and it is quite likely that Charleston will reap the rewards of its enterprise.

The figures of the growth of the South since the Civil War seem more miracle than fact. In many States values have increased tenfold; in some particular spots a hundred and a thousand fold. There was a time, not many years ago, when the South received a setback second only in its disastrous effect to the Civil War, and that was through the outbreak of speculation and the almost universal explosion of land booms. But all that has gone. The people have recovered and settled down to the normal, and the growth is legitimate development, and thus who, wanting to change their abode, have gone there are finding out that it is a goodly place, inhabited by goodly people.—Ex.

The NUGGET and Atlanta Twice a Week Journal for \$1.50 will soon be withdrawn.

Fierce Encounter With a Panther.

Three English officers were hunting a small game in the Western Gates when after being separated for some time, a shot was heard by B. and the voice of F. shouting for assistance.

B., H., for heaven's sake, look sharp or I'm done for!" (This was followed by muffled growls and snarls, coupled with reiterated but fainter shouts for help from F. Crashing blindly through the undergrowth toward the sounds. E. stumbled almost on his head into the comparative open jungle which fringed F.'s station. As he did so and vainly tried to steady his pulse and hand, H., from the opposite direction, also burst on the scene. And the sight they both saw was sufficiently fearful.

F., on one knee, held a panther by the throat at arm's length with his right hand, while with his left he was making spasmodic efforts to draw his hunting knife. And such was the terrific power of his desperate grip that the panther's tongue was protruding and its eyes almost starting from its head. But although F.'s immense physical strength, still further increased by the desperate which redoubles one's forces, prevented the brute from closing and using its teeth, yet it was wickling with its hind claws exactly as cat does when its stomach is tickled, and the bone of F.'s left arm was stripped almost base of the skin and flesh, which were hanging in gory festoons nearly up to the shoulder. Sick at the sight, the whole scene for the moment swam before B.'s eyes, but recalled to his mauler self by a piteous entreaty from poor F., who was weakening rapidly, to chance shooting him, B. braced up and ran toward the scene of the terrible conflict. H., however, would have been before him but that a root caught his foot as he ran and sent him sprawling. The next second B. had run up close and blown the savage brute's brains out, just as F. fell in a heap with the dead panther on the top of him.

Best Lawyer in Town.

Jim Webster was being tried for bribing a colored witness, Sam Johnson, to testify falsely.

You say the defendant offered you \$50 to testify in his behalf asked the lawyer of Sam.

"Yes, sah."

"Now, repeat what he said, using his exact words."

"He said he would give me \$50 if I—"

"He didn't speak in the third person did he?"

"No, sar, took good care that dar was no 'third person' round, dar was only two—us two."

"I know that, but he spoke to you in the first person, didn't he?"

"I was de first person 'myself, sah."

You don't understand me. When he was talking to you did he say, 'I will pay you \$50'?"

"No sah, he didn't say nothin' 'bout you payin' me \$50. Your name wasn't mentioned, 'ceptin' he told me of ober I got into a scrape you was de best lawyer in San Antonio ter feel de judge and de jury."

in fact you was de best in town to kiver upraskality."

For a brief, breathless moment the trial was suspended.—Selected.

When you feel that life is hardly worth the candle take a dose of Chamberlain's Stomach and Liver Tablets. They will cleanse your stomach, tone up your liver and regulate your bowels making you feel like a new man. For sale by W. E. Matthew.

Figure 2

THE NUGGET.

DAHLONEGA, NOVEMBER 4, 1901.

Col. Farrow paid Dahlonega a visit last Tuesday.

Judge and Mrs. W. W. Murray are gone to Tennessee.

B. R. Meaders is down in middle Georgia on a collecting tour.

Merchant Copeland went down to Gainesville this week on business.

E. Carroll has been appointed constable of the Dahlonega district who commenced his duties on last Wednesday.

Uncle Tom Stowers, who is well known in Dahlonega, is lying at the point of death at his home in Dawson county.

Lieut. S. A. Harris, who is now located at McPherson, was up this week shaking hands with his friends in Dahlonega.

The Woodys of Union county, passed through Dahlonega last Tuesday with a big drove of fine cattle and sheep for the lower market.

Lewis Shepherd, col., is now working out a ten days fine on the streets for throwing and hitting his wife on the head with a soup bowl.

We noticed the name of L. F. Stratton of Charlotte, N. C., on the "Villa" register this week, who, while here took a peep at several of the mines.

There is but very little space in the Dahlonega cemetery for the remains of poor people. And that reserved for them is not fit for the purpose. Can't some good man, having plenty of land, donate a few acres for this purpose?

Bartow Parks came up on a short visit to relatives in Dahlonega this week. He is doing a vehicle business in Gainesville, who agrees with us now that we are going to have a railroad to Dahlonega, which will not injure him but increase his business doubtless.

The business of the North Georgia Electric Company has increased so as to cause its incorporators to ask for an amendment to its charter increasing the capital stock to five million dollars, as will be seen from an advertisement appearing elsewhere in this issue.

There is a mayor and three aldermen to elect in Dahlonega on the third Saturday in December. The names of the present aldermen whose terms expire first of the year are Capt. H. D. Ingersoll, of the first ward; E. E. Crisson, of the second; and G. McGuire, of the third.

V. R. Hicks wished to announce to the public that he has opened a general merchandise store at the Joe McGee stand and solicits a share of your trade. He proposes to give you the highest market price for produce and sell you goods as cheap or cheaper than any one in town.

The daughter of James Blackwell went to live at the house of James Carder, her uncle, to the displeasure of her father. Tuesday morning Blackwell went to Carders and carried off his daughter child thinking that she would follow, which caused a row in the family. Carder came in and swore out a warrant for Blackwell and then the other side also wanted a warrant. Squire Worley told them all that they had better come to a halt and they did and all is in peace now.

James Blackwell, of Union county, who it was reported brought a sick beef already dressed and sold it in Dahlonega last week, came in Monday and carried off all that had not been used and paid the money back. Mrs. Fry has been sick ever since she ate some of it, but whether it was caused from eating this beef we cannot tell. Blackwell says that it was not sick. Let this be as it may it will stop people from buying dressed beef brought in from the country.

Rev. D. J. Blackwell has rented the Griggs brick house for another year.

J. F. Moore is receiving his big lot of furniture. Look out for ad. a next week.

The weather has been fine and dry for weeks and the streams are lower than ever known before in this section.

A fellow was in town last Wednesday with a load of "possums for sale strung on a stick, or in other words, with a stick split and their tails fastened in it.

Parties returning from Dawsonville this week inform us that Dr. Baber of that place says that there has been 100 cases of small pox in the western portion of that county.

The directors of the telephone Co. had a meeting here last Tuesday to discuss the advisability of selling the line to the Bell Telephone Co., but nothing definite will be done for 30 days probably.

Col. R. H. Baker's name is spoken of by some of his friends for our next mayor. The Colonel used to hold this position and did his duty well and faithfully regardless of who it pleased or displeased.

Dirt was broken on the Gainesville and Dahlonega Electric Rail way last Tuesday morning, by the beginning the grading at Gainesville. The dam work for the power has been going on for several days. Gen. Warner has been absent for some days in the interest of the road, arranging for construction cars, etc., and when he returns work on the road is expected to be pushed with a vim.

Notice.—All who are indebted to us either by note or account will settle same at once as we have been at a very heavy expense building and are forced to be very rigid on collections. We notify you in advance that you need not be surprised if you find your notes and accounts out for collection. Hope all will settle at once without further trouble.

ANDERSON & JONES.

The students at the young mens college dormitory are decreasing again, and it looks now like this undertaking is going to be a failure, and we fear that the girls dormitory is going to be the same way. It is not on account of its management this year for we learn that it is satisfactory, but the rates are cheap and it is looked upon by many as a kind of a poor house. Maybe if they would raise the rates it would be better. One objection is the present dormitory is too far off from the business part of town. Boys want to be where they can see and be seen. So does girls.

Billups Stargel, of this county, was wedded to a Miss Smith of Hall, about two months ago and from all appearance lived happily together until one day last week at which time a separation took place caused by the strange actions of his wife. The cause of their separation was told us by a reliable source as follows: Some few days ago when Mr. Stargel came in from work to his dinner he noticed some fine pieces of broken glass in a dish of beans, and that afternoon for supper the same dish of beans was placed before him again by his wife. He called her attention to the matter who claimed that she knew nothing about it. This gave him much trouble and he told his wife to go to her parents until he studied over the matter, who did as requested. Then in making a closer investigation in and about the premises he discovered a lot of broken glass where it had been hid in the house under a piece of marble, and later on he found where the glass had been crushed by his wife, as there was no one else to do it, on the end of the porch sill of the dwelling. This alarmed him so that he was afraid to try to live with her any more, and he wrote a note to the one who he dearedly loved, to send and get her things. The cause of this strange action is unexplainable, for if they ever had a cross word no one knows it.

A choice line of fine cigars at the "Villa" cigar stand.

The apple crop of this section is fine and is realizing the farmers a very good price.

The business of Dahlonega is increasing and the people seem to be prospering generally.

T. F. Jackson went to market this week to lay in a stock of furniture and other goods for J. F. Moore.

One white woman and a negro, both drunk Saturday night is all the "juicy" news we have for that day or evening.

Take the good wife and family to the "Villa" for your Sunday dinner. Clean and rapid service. Try it, you will be pleased.

E. L. Reese went down to Atlanta last week to see the fair or horse show and replenish his stock of goods while in the city.

Court convenes next Monday at Cleveland and then the following Monday it will open here and give defendants an opportunity to be heard from.

We heard two men of families, residing in Dahlonega, state last Saturday while puffing cigarettes say that they wished the cigarette bill would become a law and that none could be had any where.

The Dahlonega Signal came out in an editorial last week opposing the proposed bill for sheriffs giving the legal advertising to the papers having the largest circulation in each county. If we were in the Signal's fix we would oppose such a bill too.

"Parson" Bob Beck, was lodged in jail at Dawsonville last Monday on a warrant sworn out by a Mr. Strickland charging him with cursing and using other bad language in the presence of ladies. He had an appointment to preach that night but the above explains why he didn't fill it.

The law fixes the time of closing the city tax books on the first of October of each year, but no tax was issued against any of the defaulters until this week. Nothing like doing business in a business like way by carrying the law out and if it is not a good one have the legislature repeal it.

Geo. Walker didn't accept the constables appointment at this place. The first work allotted for him was to go out three or four miles into the country and serve a paper for 35 cents and then have to wait a month or two for it, and he declined to accept this office of honor and trust, which has been vacant by Mr. Coffey going and accepting a job in Atlanta as a mechanic.

Now that Capt. Hall, one of the arbitrators in the Adams-Witt settlement, has passed away before the matter was adjusted about the gold ore Mr. Adams carried north for a show belonging to Mr. Witt, some of it being misplaced, the case will take a different direction. Mr. Witt says that the matter may be put before the next grand jury for an investigation.

There are a number of very old people in this county who never saw a train in their lives but the indications are now that they will yet see one in the near future by coming to Dahlonega or being somewhere on the line. There is an old lady residing on the Chestate river 75 years of age who settled there more than fifty years ago who says that she has never been two miles away from the place since she settled at it.

Rev. Mr. Smith, who it was claimed disappeared at Augusta mysteriously a few days ago, is still in Dahlonega. He says that he thought he had a right to leave that city whenever he saw proper, and did so without saying anything about it or even leaving a note that he was gone. People while visiting Augusta hereafter will have to notify everybody when they are going to leave otherwise they will be put down on the crazy list.

The best smoke in the south is the "Old Roman." Get it at the "Villa" cigar stand.

One or two of John Montgomery's daughters residing in Hightower district, have the scarlet fever.

Elsewhere will be seen the advertisement of a charter by some parties going to engage in the real estate business in Dahlonega.

Geo. W. Bruce, who put all of Crown Mountain Co's machinery in position, left last Monday on a two weeks visit to his mother at Cartersville, Ga.

A statement was made that one of the new bridge pillars had been injured by dynamite but a careful investigation by Judge Huff proved it to be a mistake.

Parties from Gainesville have been here this week endeavoring to buy business houses. They desire to be here ready for the railroad and the many people it will bring to Dahlonega.

Smith of Florida, who was to give various parties in this section \$20 per month to work for his paper called the Constitution, has not as yet paid any attention to the bill sent in by Miss Wallace who completed her first month's work some time ago.

A back load of men went some seven or eight miles out into the country last Friday night to attend a dance to be given by some parties who were fixing to depart for Alabama, but when the back reached its destination the parties were very much disappointed to find that no shuffling of the feet took place.

The first soap stone window sill used in a building from the large quarry in this county can be seen in the Price building, looking almost as smooth and pretty as marble and when painted the difference can't be told. The property containing this is located a few miles from Dahlonega on the Chestate river and belongs to F. H. Kennedy of Massachusetts.

Reid Lemly was arrested last week and lodged in jail on a warrant sworn out by Goodman Beck, charged with carrying a pistol. Some time last fall while Lemly was in a tree gathering peaches Beck saw his pistol, which will likely add more trouble court week as we understand that Beck is going to be prosecuted for cursing in the presence of ladies. So this is the ways of the world.

Several of our citizens attended the horse swappers convention at Dawsonville last week, notwithstanding it was reported that there were no less than 80 cases of small pox in that county, and we wouldn't be at all surprised to here of this convention being the means of spreading the disease not only in Dawson but other counties. It is best not to run into a contagious disease, especially when one is known to exist.

County treasurer, J. B. Brown, went into a store the other day and enquired of a merchant what he would pay for chestnuts by the load. "One dollar per bushel," replied the store keeper, thinking that he was going to get enough to ship to the lower market, but when Mr. Brown brought them in the purchaser was very much surprised to find that there was only a half bushel for which the dealer took in soda saying that his wife was going into the bakery business.

M. V. Barker's family are all well of the scarlet fever and if there are any cases in Dahlonega now it is not known to the city council. Although some children have had it and got well without it being known to the public, Jack Strickland had it at his home and told Dr. Wheelchel, when asked why he didn't send for a physician, that he would have been housed up by the authorities had he told it. There is no use for it to be a punishable offense for Doctors not making it known when knowing of its presence here unless others are punished for concealing the fact. This has been done here by both white and black.

Is your house insured? If not? why not?

The scarcest article in Dahlonega is brick. None can be had for love nor money.

(Morning after the fire) "My, how glad I am I took out that policy! Without it I would be a ruined man to-day."

Farmers are now busy gathering their corn crop, which in most instances, where cultivated well, is giving satisfaction.

The negroes had a supper at their Methodist Church Friday night where they devoured the "possum and played hide and hoop until 12:30.

Hon. Geo. T. Barnes, well known in the city and who was in congress with Col. W. P. Price, of Dahlonega, died at his home in Augusta on the 24th ult.

Your collars and cuffs will always retain their shape if you let us launder them. Haven't you often seen a collar that has been ironed out of shape. We know how to handle them at our laundry. Give us a trial.

M. A. Spurling.

Barker J. H. Carter visited the N. G. A. College one day last week and took a thorough look all through the building, and before departing gave the college a hundred dollar check for the use of its library, for which he has the thanks of all interested.

Mr. Cusick, a son of Capt. C. C. Cusick, located in Dahlonega, came in Friday from the Philippine Islands. It was certainly a happy meeting between the young man and his parents. We trust that his visit to our mountain city will be a pleasant and enjoyable one.

After living under the same roof for fifteen or sixteen years John Dyre and Mrs. Beckie Blackwell were wedded last week by Rev. John Forest. And now in their declining years it can be said of them, "that two souls with but a single thought, two hearts that beat as one."

One day last week J. E. Tankesley, who spent several days in Dahlonega recently acting as an agent for a mail contractor, was arrested out in Gilmer county on a warrant by a man charging him with cheating and swindling, for which Tankesley was bound over and made bond for his appearance at the next term of the Superior Court of that county, but from what we learn it will amount to nothing in the end. This trouble occurred while he was out making arrangements with a party to carry the Dahlonega and Ellijay mail which route had been given up by a sub contractor. It costs the present or original contractor \$102.00 more than he receives for it. We understand that this agent has employed Col. Lilly of Dahlonega to "push" the bondsmen of those who had already contracted to carry it and gave it up, which will probably make all contractors more careful in the future.

On Thursday of last week Frank Wheelchel, residing near Murraysville, undertook to clean up George Marlow and Goley Townsend, two teamsters who regularly travel the Gainesville and Dahlonega road. George was in front and Wheelchel jumped on him when he appeared and scratched him up some. The former got out of it the best he could for he has been sick a long time and was not able to fight. Then when Goley came up he lit in on him and they went at it in earnest, scratching and gouging like cats and dogs, and when they fell Goley got hold of a good luck horseshoe and went to pecking Wheelchel in the face like a mining expert in search of a rich chute, until they were separated. Goley's face has the appearance of a clove and it is said his antagonists presents the same appearance. Wheelchel dealt in liquor and had to go to Atlanta and see Judge Newman about it who, while drinking that day accused the boys of reporting him. It may be now that Wheelchel will have to go back to the U. S. Court for intimidating witnesses.

Mining Notes

The mining outlook in this section is very bright now, much more so than it has been in many years.

The Battle Branch mining property failed to change hands as was stated last week on account of Capt. Hall being too sick to receive the money for it, and now that he is dead we don't know how long it will be or whether at all by the present party or not.

Work suspended in No. 1 shaft down at the Hand mine last Saturday afternoon, and no work is now being done on this property except in the big tunnel above the mill. They are on the Knight vein which is some three or four feet across and it is not known yet how thick, being worth four or five dollars per ton.

At the Singleton or Tahloneka work is progressing nicely and satisfactory, several hands being dropped off last week that were not now needed, showing that they are working on an economical and business like way. Stoping is continuing on a large rich vein in the shaft, some of the ore said to be worth \$20 per ton.

Nearly every week strangers are here looking over the mining field with an eye to investing. All are invited and when you invest we trust that you will make money, be you from the north, east, west or south, for there is no prejudice resting on our minds against any capitalists, for it is to our interests and to the country's interest for all investors here to meet with success.

At Crown Mountain a large body of good cement ore was uncovered last week in the Preacher Cut, as was mentioned, that is known as the Barker Cut on the Columbia lot, is showing up nicely. There is a large body of cement quartz and apatite ore exposed in this cut. Rich ore is being taken out of the Summit vein. Another Huntington mill has been started up and another ordered. It is thought by the manager that four Huntingtons will handle the ore ores.

Even the people of Maine are interested in our mining operations as will be seen by the following letter written to us last week by D. H. B. Hooper, of Biddeford, to-wit: "Enclosed please find \$1 for one year's subscription to the Nugget. We feel interested in the development of the mines around Dahlonega and know of no better means of learning what is going on than to invest a dollar in your paper. Please send this weeks copy so that we may not miss any of the news."

Just before Christian Wahl died Col. J. W. Strickel, of Kentucky, and his brother, George, residing in Alabama, secured a lease or option on Mr. Wahl's land known as the Whim Hill property in Lumpkin county, with an obligation that they would purchase it at or before the expiration of this time provided that it is as represented. A pump will be used in order to more fully develop this mine with the waters of the Etowah river which run through two or three of the lots. No doubt these gentlemen will purchase the property as the mine is one of the best of the county and the water power ample for all mining purposes.

Mr. Wharton, after an absence of several months traveling around through the north appeared in Dahlonega last Monday. The object of his visit was to make the final payment on the Calhoun property which he purchased from the board of trustees of the N. G. A. College some time ago. Notwithstanding his absence of many months his mine has not been filled by any means. It has been in charge of Wharton Anderson, a good, trusty, reliable man who has kept things in operation all the time just the same as if his owner was present, making money. Mr. Wharton told us to take a peep into a shot sack, which we did, and saw a largewad of burnt off gold weighing eight hundred or a thousand pennyweights.

The Oldest Umbrella.

Among the harlooms in the family of Robert K. Thomas of Lower Providence, Penn., is an umbrella more than 150 years old. It is believed to be the oldest in the world. If it is true, as of record, that the first umbrella used in England by a man was in 1750, this old umbrella was doing duty in the Thomas family before the first Englishman adopted the umbrella as a shield against rain.

The average umbrella weighs about 16 ounces; this one weighs exactly 32 ounces. It is 36 inches high, 46 in diameter, and 144 inches, or 12 feet, in circumference. It has nine heavy whalebone ribs, each one-fourth of an inch square and 26 inches long. The cover is heavy green material and there is not a hole in it. -Philadelphia North American.

Owing to a large per cent of the apples in Fannin county being speckled and rotten, it is believed to be caused by the Ducktown smoke. If this is so the time will soon come when our farmers will have to follow other pursuits for a living - World.

SOUTHERN RAILWAY.

FOR HARNESS and Saddle Sores Mexican Mustang Liniment

It's this way:

You can burn yourself with Fire, with Powder, etc., or you can scald yourself with Steam or Hot Water, but there is only one proper way to cure a burn or scald and that is by using

Mexican Mustang Liniment.

It gives immediate relief. Get a piece of soft oil linen cloth, saturate it with this liniment and bind loosely upon the wound. You can have no adequate idea what an excellent remedy this is for a burn until you have tried it.

A FOWL TIP.

If you have a bird afflicted with Roup or any other poultry disease use Mexican Mustang Liniment. It is called a STANDARD remedy by poultry breeders.

Saloon Railroaded Out.

Loyalton, Cal., was rid of the saloon in a rather remarkable way. A large lumber company which was building a line of road to reach certain timber which it controlled made the proposition to build a depot and several box factories that would give employment to some hundreds of men at that place provided the people would give a sufficient guarantee that no liquor should be sold in the place or within six miles of it. Without such a guarantee the company held that it could not consistently with its own interests make large investments there and in event of failure to obtain such guarantee announced its intention of building a new town elsewhere where it could control the situation. The people very wisely agreed to the terms of the company. The railroad came, and the saloon went, and all reputable people are pleased with the arrangement.

A Girl's Essay on Boys.

At a recent public school examination for girls in an English town this composition was handed in by a girl of twelve: "The boy is not an animal, yet they can be heard a considerable distance. When a boy hollers, he opens his big mouth like frogs, but girls hold their tongue until they are spoken to, and they answer respectable and tell just how it was. A boy thinks himself clever because he can wade where the water is deep. When a boy grows up he is called a husband and he stops wading and stays out at nights, but the grown up girls are widows and keep house."

Conundrums.

What bents a good wife? A bad husband.
When is it right to take any one in? When it rains.
Why is a kiss like a rumor? Because it goes from month to month.
Why is the house of a ditty wife like a motion to adjourn? Because it is always in order.
Why do the white sheep furnish more wool than the black sheep? Because there are more of them.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. E. S. Shipp, of Poteau, Ark. "It cured me of bloody flux, I cannot speak too highly of it." This remedy always wins the good opinion, if not praise, of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere. For sale by W. E. Matthews.

Dalhousie seems to be a successful place for merchants. It is a rare thing for one to bust and this has not occurred for many years.

CITATION.

Georgia, Lumpkin County:
To all whom it may concern:
I, T. M. Head, as administrator of the estate of James W. Head, late of Walker county deceased, have applied to the ordinary of said county for leave to sell the lands of said deceased lying in the county of Lumpkin. Said application will be heard by the ordinary of said county of Lumpkin on the 1st Monday in November next and if no good cause to the contrary is shown an order will be passed granting the undersigned leave to sell said land as the law provides. This the 8th day of October 1901.

T. M. Head, Adm'r of
JAMES W. HEAD, dec.

JEWELRY

Mr. Hardwick, of Washington, has introduced a bill in the legislature to make it a crime for any intoxicated person to appear in a public place and punishment therefor. This will not likely become a law as there are too many members of the legislature that likes to get on a spree some times, when visiting places for pleasure.

JEWELRY

In gathering the beautiful roses the fingers are often pricked by thorns. Just so with life; in seeking earthly happiness the heart is bruised by the sorrows which are almost sure to be about the blossom.

To remove a troublesome corn or bunion: First soak the corn or bunion in warm water to soften it, then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days, to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by W. E. Matthews.

FROM TEXAS.

Prof. A. W. Cain Gives us
More Interesting News
From the Lone Star
State

FLORESVILLE, TEXAS,
Oct. 29, 1901.

ED. NUGGET:—
Some of the readers of this paper having asked me to tell something more about the Texas frontier I wish to make the following remarks:

If one should travel north or east from here he would travel a thickly settled, highly civilized section of country, but if he were to go the opposite direction he would find very little except cattle ranches and Mexican huts from here to the line of Mexico.

This section has a population that is exceedingly complex; being composed of Polanderes, negroes, Mexicans, Dutch, Germans and Americans. About one half the entire population is American. Most all the people in the towns are Americans.

One of the most interesting features of southwest Texas is Mexican life. The Mexicans are a peculiar people. They are slightly smaller than the American (as the people of the United States are called here) and as dark as the average mulatto. Some of them are high toned, well-to-do people but a vast majority of them are contented with the most wretched surroundings. But let it be said to their honor that they are good for their debts, even better than the Americans. They speak a corrupted form of Spanish. If you were on the streets any Saturday you would doubtless hear more Spanish than English spoken for every Mexican comes to town on Saturday. The Mexicans are a hardy people. I saw one that claimed to be a hundred and seven years old. I dare say he was not younger than that. I have seen many others that looked even older. Some of them are simply walking mummies while others look like the "missing link" in evolution. One of their favorite pastimes is smoking. They smoke Black Horse tobacco rolled up in shucks. One roll of this stuff would be sufficient to kill old Pluto but it doesn't hurt the Mexicans. Another of their sports is fighting. Last Sunday one of them was shot center through several times and he is still alive. Not long since one of them became enraged at another and leveling a No. 45 six shooter on him at a distance of two yards demanded a certain promise. He refused to make the promise and the man with the six shooter hurled a bullet through him and again demanded the promise. It was again refused and the dialogue was kept up until the six shooter was empty; but the Mexican is now alive and well. What is a little thing of that kind to a Mexican? He cares no more for that than the ancient inhabitants of America cared for being petted with a stone in the days of the sixties.

The cowboy has not entirely disappeared but to a great extent his place has been taken by the barbed wire fence. Most every family have a ranch. Even those who live in town have ranches; some of them ten, twenty, and even forty miles away. This is the place for the hunter. There is not much large game except deer and turkeys but there are plenty of blue-quails, partridges, fox squirrels "cotton tail" rabbits, jack rabbits and some other game. But doves are more numerous than anything else. I believe it would be an easy task for one man to kill forty or fifty doves in a single afternoon. They are almost as numerous as wild pigeons were in the east when our fathers were boys. One of the most delightful sports is shooting the wolf. This is easy to do. It is accomplished by building a camp fire on the plains at night. The wolves will draw near and shine their eyes. By the peculiar nodding motion of the pair of eyes in the dark you are never deceived in your target. Most everybody use 16 gauge shot guns. The favorite time for bird hunting is on autumn Sundays.

Last Saturday one of our professors and I went out in the country a few miles to visit the ruins of an old mission. As game is very plentiful we carried our guns. On the way we found a grapple vine literally breaking with delicious musang grapes. We cut an immense cluster from the vine and after stringing it on a sign barrel and placed it on our shoulders started for town. As grapes are such a rarity out here it is not strange that many who saw us mistook us for Caleb and Joshua returning from the Promise Land.

The land is a mixture of gray soil and sand. It makes beautiful roads and is fine for cultivation. But some places are very sandy while there are occasionally small areas of sticky soil. If you should attempt to cross one of these sticky places just after a rain you would find yourself in about the same predicament as a fly that tries to walk over a piece of "tangle foot." If the rainfall was about twice as heavy as it is these lands would produce abundant crops. There is much mineral in the ground. So all the well water is mineral water—most of it limestone. There are scores of windmills busily pumping water which is used for irrigation and other purposes. The people don't drink well water at all; they use cistern water. I like the well water better but don't care to run the risk of being petrified alive by using it. I have seen whole stumps and parts of trees petrified. I also saw a clam, a turtle and a rubber ball that were turned into solid stone.

We have a fine school. There are more than three hundred pupils in actual attendance—about eighty pupils above the high water mark of previous years. The Board will employ two more teachers, thus making a faculty of eight. The examinations for teachers are held monthly. They embrace seventeen different branches. Among them are Algebra, Geometry, Physics and General History. I have just taken one of these examinations and made a mark that entitled me to a first grade four year certificate. Teachers here are paid promptly for their services. At the end of each month we make our reports and our salaries are paid at the bank same day month closes.

I have just spent some time attending the International Fair at San Antonio, the largest city in the far southwest. Of course I enjoyed the various "Wild-West" sports; none of them being more interesting than the cattle roping contest. While there I visited the historic Alamo on the main Plaza of the city. Upon entering this venerable old mission I saw the blood stained walls where Travis and his 172 heroes fought like demons for eleven days against the besieging hosts of Mexico—fought until the last man in the fortress poured out his life upon the altar of Texas liberty.

Respectfully,
A. W. CAIN.

SOME PRECAUTIONS.

Advice on Scarlet Fever by a
Prominent Physician.

Dr. J. P. Bowdoin, editor of the Adairsville Banner, and a physician of wide experience, publishes the following in his paper and we commend it to the careful perusal of our readers:

We would warn the people to treat every sore throat as a bad case of scarlet fever. This is the only way it can be stopped or controlled. We append below rules of the health board of New York city, which will aid you should you have a suspicious case, to treat it properly. Carry them out to the letter. Here they are:

"The patient should be placed in a separate room, and no person except the physician, nurse or mother, allowed to enter the room or to touch the bedding or clothing used in the sick room until they have been thoroughly disinfected.

"All clothing, bedding or other articles not absolutely necessary for the use about the patient, such as sheets, pillow cases, blankets or clothes must not be removed from the sick room until they have been disinfected by placing them in a tub with the following disinfected fluid: Eight ounces of sulphate of zinc, one ounce of carbolic acid, three gallons of water. They should be soaked in this fluid for at least an hour and then placed in boiling water for washing. A piece of muslin one foot square should be dipped in the same solution and suspended in the sick room constantly and the same should be done in the hall adjoining the sick room.

"All vessels used for receiving discharges of patients should have some of the same disinfected fluid constantly therein, and immediately after being by the patient should be emptied and cleansed with boiling water. Water closets and privies should be disinfected daily with the same fluid or a solution of chloride of iron—one pound to a gallon of water, adding one or two ounces of carbolic acid.

"All straw beds should be burned.

"It is advised not to use handkerchiefs about the patient, but rather soft rags cleansing the nostrils and mouth, which should immediately thereafter be burned.

"The ceilings and side walls of a sick room after the removal of a patient should be thoroughly cleaned and lime washed, and the woodwork and floor thoroughly scrubbed with soap and water."

The postal authorities have exposed a matrimonial swindling scheme at Rochester, N. Y. The scheme was to answer advertisements of parties desiring to marry, send photographs of handsome woman, and after the courtship had been carried to the marriage point, ask for money with which to pay railroad fare to destination, and after getting the money drop something out.

A suggestion has been made by the Governor to parole instead of pardon state convicts whose behavior has been good, such convicts to be subject to the orders and regulations of the prison commissioners who would have the authority to imprison them again if they should misbehave.

When you feel that life is hardly worth the candle take a dose of Chamberlain's Stomach and Liver Tablets. They will cleanse your stomach, tone up your liver and regulate your bowels making you feel like a new man. For sale by W. E. Matthews.

THE NUGGET

DAHLONEGA, NOVEMBER 8, 1901.

A choice line of fine cigars at the "Villa" cigar stand.

Dr. Jones paid his son, Charlie, in Atlanta, a visit this week.

(Morning after the fire) "My, how glad I am I took out that policy! Without it I would be a ruined man to-day."

A lot of hats and caps just received that will be sold cheap. Good green coffee 11 lbs. for \$1.00. Shoes at rock bottom prices at J. H. McKee's.

Col. Baker returned from Macon last Sunday where he had been to attend the Grand Lodge of Masons. He is not asking for any office nevertheless the people here are speaking of electing him mayor of Dahlonega.

The read commissioners of this district met again last Saturday and fined some road defaulters, convincing them that it is best for them to hereafter work the roads even if it is a hardship on every poor man and boy.

A stock law election in two districts of this county occurred last Monday—in Auraria and Mill Creek districts—both going for fence by a big majority. Auraria was 66 to 14 and Mill Creek 27 to 10. As the most of you know we are opposed to the stock law and can't help but drop a smile.

We visited the street work last Tuesday and found four men at work—two blacks and two whites. The white men were in their shirt sleeves while the negroes wore full rigging. One of them had an overcoat on and leggings, with a watch chain to match—making a very nice appearance for a street worker.

John Cain, of Dawson county was brought in last Sunday by U. S. Deputy Marshal Grizzle and bound over for making blockade liquor. They have the small pox down in that county and he had gone out into the forests, put a still to running preparing some disinfectants, quarantined against these officials but they took the risk and stopped the concern.

We don't go much on some of these U. S. pensioners. Just to think that a man will be guilty of deserting his country in time of war and go across the line, turning his back on his home, relatives and friends, if he has any, and then come back and ask to be paid a sum of money for "services rendered," ought not to be tolerated. There are a number of them in Lumpkin county, and when they come in to make out their claim they look sneaking, and ought to. And the pension agent Walker, who comes here to assist them in some instances looks as bad as they do. He will occupy the ordinary's office, request and get his official signature for these claims and never even thank the officer.

Last Sunday night while seated at church by the side of the city Marshal, some one came for him in post haste. We understand that it was Albert Coffee, a negro who has mostly made a living by selling impure blockade liquor. Some white men had met down at a woman's house of his color, who had been roosting with a white woman (we are sorry to say). They had cleaned out the patch, caused the colored one to leave in a hurry for the forest, and ought to have made the other follow. Albert wanted to see the law enforced and justice done. Bear in mind that we don't approve of such conduct, although we have been guilty of just such acts while young but we are growing older now and learned that all such sport is folly, nevertheless we feel that it is out of place for one who is now working out a sentence for selling liquor and continues to follow the business of the liquor traffic to report any thing. Albert is one of the shining lights of the Baptist church.

Is your house insured? If not? why not?

The letter of Mrs. Nannie Star-gel will appear next week.

U. S. Deputy Marshal Grizzle is putting up a nice residence on his lot near the college.

The best smoke in the south is the "Old Roman." Get it at the "Villa" cigar stand.

The students have donned their new caps and uniforms this week, all looking nice enough for the girls to want to bite.

While in attendance upon court next week don't fail to go and see Mrs. Stricklands pretty millinery goods.

Robt. Patton was wedded to Miss Amanda Ash last Sunday. The bride is 27 years old, although he had to steal her.

Take the good wife and family to the "Villa" for your Sunday dinner. Clean and rapid service. Try it, you will be pleased.

Have you read B. R. Meaders & Sons advertisement? It will interest and profit you to spend your money there. Their Christmas line will be a dandy this year.

While attending court next week drop in and see the large variety of goods just received at H. D. Gurleys. He can please you both in prices and quality of goods, no matter what it is.

J. A. Howard now has a pocket knife which was carried by his father, Dr. N. F. Howard, for about 40 years, which is in very good shape yet and much better metal than most of the cutlery we purchase these days.

The Dahlonega Bank is in a prosperous condition, doing a much better business than was expected by those interested in it. Mr. Bruce told us last week that they were doing the business now that they didn't expect before six months.

Mr. Ashley has been suffering considerably for several days from an injured foot, caused by a bolt tearing or cutting its way through the top of his foot recently when the machinery of the boat was suddenly started up without his notice.

Virgil R. Hicks wishes to announce to the public that he has opened a general merchandise store at the Joe McGee stand and solicits a share of your trade. He proposes to give you the highest market price for produce and sell you goods as cheap or cheaper than any one in town.

You hypocrit female who have been talking about the editor of the NUGGET, please tell your father to pay the dollar that he is due us and don't make an ass of yourself by going to church and twist your nose to suit the occasion by trying to imitate some wealthy person.

Bryson and Odum, the two old miners who have been prospecting on the Barlow property for two or three weeks, had to give it up the other day on account of being unable to keep the water out of their shaft. They feel confident that it is not far to the vein which produced those big nuggets that have been found there in years past.

Tom Ray, Tom Duckett, Ollie Jones, H. E. Watson, Zeke Blackstock, Will Childers and Charlie Hunter all attended a reception at some house this side of the Hand mill Sunday night and were charged with a disturbance and the most of them had a trial and came clear but Watson. He threw a broom at the occupant, struck the piano and was fined five and cost.

Rev. Wallace Rogers will deliver his last sermon at this place next Sunday unless he is reappointed to fill the position. Mr. Rogers has faithfully discharged his duties and we for one hope that he will be returned. He always upheld that which was right and was never guilty of going out hunting and fishing and smiling while some of the brethren tipped the jug, like some of the ministers who would mention that have been to this place.

The North Georgia Conference comes off at Rome on the 20th instead of the 28th, as was stated in last weeks Nugget.

The railroad company is now letting out the contract for the cross ties. We understand that the price given is from 22 to 25 cents each.

Merchant T. S. Littlefield is putting up a blacksmith shop on his premises at which place the ring of the anvil will soon be heard.

We were shown last Sunday a Spanish coin about the size of a ten cent piece, by Bev. Johnson which he found while mining last week on the Walker property below the Barlow mine eight feet below the surface.

NOTICE.—Please call and settle your account with us, as I am going to make a change in my business by January 1st and am compelled to push collections. We dislike to put out accounts for collection but will do so if not paid within 30 days.

FRANK L. REESE.

In our note about the decrease of the students at the college dormitory last week, we can't say within our own knowledge whether it is true or not. We got our information voluntarily from one of the most prominent members of the board of trustees, notwithstanding this fact, we learn that it has been disputed.

General Warner, after an absence of several days in Washington and other cities in the interest of the railroad, returned to Dahlonega last Sunday afternoon having accomplished the object of his business. The General has built several railroads before and knows exactly how and where to strike when the iron is hot for the success of his undertaking.

Do you think they will certainly build the railroad? is still asked us by persons who are anxious for it. It looks very much like they will. Mr. Moore, one of the directors informed us last Monday that they had put one hundred hands at work on it that morning. What more can we say or do to convince you of the fact that Dahlonega is going to have a railroad?

Old grandma Cain of Porter Springs, who is more than a 100 years of age, presented J. H. Moore, clerk of the Superior Court, last week with a quilt square which she had recently made with her own hands, and Mrs. Moore is going to make a quilt and place the square in the center in memory of this good old christian lady, who has been permitted to live so long among us.

Stick to your home merchants. Don't be guilty of buying a box of matches here on a credit and then go down to Gainesville with ten dollars and purchase goods because they are a little cheaper. Such as this is exactly why goods are higher here. If you will take five or ten dollars to your home merchant, and pay him what you owe, he can afford to sell you goods cheaper.

As stated before, the Heard shoals in Dawson county were recently sold to a company represented by Gen. Hardin, of Kentucky. There is no better water power than this in the state. Only a few years ago this water power was sold at public sale for \$100, and a citizen of Dahlonega now said that he came near buying it. By failing to do so he has missed several thousand dollars.

Several efforts have recently been made by officials and other parties of this county to capture Sallie Hix, who it is said is in the mountains near the line of White and Lumpkin counties, wanted for murder in Banks county, but without success. The reward of \$150 is offered by Governor Candler for her arrest, causes more interest to be taken in the matter. It is said that she is donned in a full suit of mens clothes and presents a very handsome appearance who may yet become very popular among the ladies of that section.

Notice.—All who are indebted to us either by note or account will settle same at once as we have been at a very heavy expense building and are forced to be very rigid on collections. We notify you in advance that you need not be surprised if you find your notes and accounts out for collection. Hope all will settle at once without further trouble.

ANDERSON & JONES.

During the fall season for preachers one of the old colored sisters of the Methodist church of this place, whose sons are great hunters, secures enough "possums" nearly every week to have a supper at the church for the benefit of the pastor. Each one attending gets a bite or two of the wild meat of the forest and a small piece of light bread and in this manner swaps "possums" for religion and keeps the church up.

As many of you know Dahlonega is one of these so called dry towns where a person often has to drink Peruna and lemon extract as a substitute for liquor. But we will warn you to beware of lemon extract as a beverage. Last Sunday a certain man after taking on several bottles "came up missing" that night, causing his wife to be alarmed, and while out in search of her loved one it is said found him sleeping on the arm of a negro wench.

The lesson taught by Bob Beck should cause all preachers to refrain from getting up in the pulpit and asserting that the Lord call them to preach. He doesn't do it. Persons who get old enough and select their own avocation in life without the interference or assistance of the Lord. Should any of them wait in earnest until He calls them they will perish to death and dry up on the stalk. Had Beck been called to preach, as he claimed, the jail of Dawsonville wouldn't have held him.

How is this for low prices? Any way we can't guarantee the price of the present supply of articles now quoted are going fast. Ham stitched sheets 67 cents; fine cream cheese 74; first class green coffee 10 cents; splendid family patent flour 59 cents; nice lams with nice white shades 64 cents; a few pairs of nice shoes for men and women on which we will save you from 25 to 75 cents per pair. Call and examine them and you will see for yourself. Horse brushes from 9 cents to 65. Children and youths undersuits and pants heavily fleeced so they will not scratch, 9 to 20 cents; and a big line of other general merchandise that we must get rid of to make room for our great Christmas bargains that will arrive about December first.

B. R. MEADERS & SONS.

We attended the Temperance Union at the Baptist church last Sunday evening. The house was crowded but we noticed only seven persons older than ourselves present. The recitations by the little folks were very nice and the words by the older ones were well spoken and the solos pretty, to those who like them, all reminding us of the exercises on Friday afternoon at a country school. While this was going on we sat and wondered what effect a solo would have on a sinner who uses Peruna and extract of lemon as a beverage. Not one bit, more especially when old members of the church who buy liquor by the gallon can be seen occupying some of the amen benches every meeting, and last but not least, giving a prohibition candidate for president not exceeding four votes in Lumpkin county. If people would live up to the rules of the church there would be no use of these so called temperance gatherings. From here we went to the colored Methodist church and heard those present sing "Angels coming with their wings all dipped in gold," made an investment of twenty-five cents for the vocal music, loaned a fellow fifty cents to buy liquor with, we suppose, then left for home and retired thinking over the many strange things that had occurred on "temperance night."

The many weeks of very dry weather in this section has been a draw back to the miners.

Bob Beck, who is now in jail at Dawsonville, charged with using obscene language in the presence of females, doubtless was saved from getting a whipping in this county by being imprisoned. He had an appointment to preach at a certain school house and a crowd of citizens had made arrangements to give him a severe whipping with hickory whips and run him out of the country.

While within the sound of the cornet at the Baptist church at this place last Sunday during Sabbath school we wondered what the founders of the church would say could they be admitted to come out from the city of the dead after long years of silence. There are two many people of to-day who try to imitate the horn is the reason we have no better vocal music. Give us the old time Jacky Reeves music.

It is right amusing to us sometimes to pass by the houses of certain members of the church early in the morning and hear within the walls of their premises the song of "Shoo fly don't bother me," by those who apparently wish that all country editors would live a christian life, at a time when they ought to be engaged in family prayer in order to let their lights shine that men might see their good works.

Last Saturday night, a poor man and his wife were seen traveling from place to place selling chestnuts on the public square at five cents per quart, which were gathered many miles away. Those having plenty have no idea what a hard time some people have to keep the wolf from their door. Such industrious people as these, who are endeavoring to make an honest living, should always be patronized and encouraged.

The present bank in Dahlonega is receiving a very liberal support by our citizens, but we would advise no one to deposit money in the bank just for outside appearances and at the same time be owing some poor fellow twenty cents for cutting up a load of wood. Not long ago a certain person asked us why we didn't make a deposit in the bank in order to establish our credit abroad. Our reply was that it was best to pay our debts at home which would soon reach the ears of strangers. Pay your debts first and keep the money in circulation. This is what builds up a country.

The present legislature should do something towards decreasing the pension list. There is many a man in Georgia drawing money from the state who are no more entitled to a pension than we are and we were not old enough to be in the civil war. "They swallow" the oath and we can't see how some of them do it who are expecting to get to heaven and become an angel. Many of those entitled to a pension don't get it because they feel it their duty to protect their country same as they protect their home, wife and children. This way of selling a poor woman's last cow and calf for taxes to help pay pensions is not justice.

Lewis Elkins and J. B. Stovall, were fined one dollar and trimming this week for shooting within the corporate limits. Boys, it is your own fault. You know that it is a violation of law to shoot in an incorporated town, but maybe you are like we used to be. As you know, we suppose, without any explanation that we have been a boy and used to enjoy this kind of fun. Some times we got justice and other times we didn't. We mean that we escaped justice some times by not being caught up with. On one occasion here, well do we remember that we were found guilty on false testimony and fined by the present judge for carrying a pistol, and at another time the grand jury failed to return a true bill against us for concealing one when we were guilty and we decided to strike off even and grumble no more.

Public School Roll of Honor for October.

To obtain a place on the roll of honor pupils must maintain an average of E (not below 90) in scholarship and attendance and must be perfect in deportment.

First Grade.—Viola Housley.

Second Grade.—Second Div.,—Edward Fitts, Alice McGee, Ellen Fitts.

Second Grade, First Div.,—Willie Housley, Mary Stanton, Ada Sisson, Birdie Anderson, Wier Boyd, Lelia Rex, Alex Stevens, Maud Rickotts, Garner Hoff, Paul Brooksher, Cynthia Turner, Lizzie Turner.

Third Grade.—Montine Hutchins, Marion Fry, Carry Huff.

Fourth Grade.—Frances Stanton, Ora McKee, Carrie Brooksher, Willie Wallace.

Fifth Grade.—Pearl Anderson, Isabelle Charters, Lula Gurley.

Seventh Grade.—Miss Bessie Keith, Miss Earl McCoy.

The Railroad.

At last the citizens of Gainesville have been convinced that the present railroad company means business and that the line will be completed from that place to Dahlonega beyond a doubt. The Eagle of last week, after telling about the beginning of the work, makes this announcement, which will be of interest to many readers of the NUGGET, to wit: "With regard to the freight and passenger service, as touching the city of Gainesville, coming from Dahlonega, the passenger cars will be cut loose from the freight cars at West Washington street. The freight cars will go over the Price survey to the Southern depot and the passenger cars brought up Washington street to the public square and then down Main street to the depot, allowing all Gainesville passengers to get off at any uptown point they may desire. The same service will be given on outgoing trains, the only difference being that the freight and passenger cars will be joined at the Washington street junction. D. E. Evans rolled his horse cars off the track Monday and turned his street railway system over to the new company. Our fast mail service that was put into operation a year or so ago, because the street car was so slow, will also go out after the electric system has been completed."

Stopped His Paper.

With a very sad and aching heart we publish the following distressing language received from Prof. F. R. Adams, the "great I am," who resides in a far off northern state:

DELAWARE, O., Oct. 31, 1901.

EDITOR NUGGET.

Discontinue my subscription to your paper. F. R. ADAMS. The is the Adams that gets the title to his name by whistling and beating the bones. And this is the same professor and one of the promoters of the Consolidated Co., who came down here to show the natives that they had no mineral sense and helped to create such a big fizzle in their so called deep mining, and endeavored to make us believe that the Hix process really made gold. Grant God, what a scam it is on us for one like him to discontinue his subscription to the NUGGET. It has certainly given us much pain. It has caused us to take the headache, backache, toothache, bellyache and toe itch. This office is draped in mourning from the bottom to the top and some pieces of crepe can be seen hanging on a little out house in the lot. All caused by the P-N-O-F-A-S-S-O-C-I-O-N ordering his paper stopped. And to more publicly show that we are very greatly affected by this sudden move on his part the office call has been partly dressed in black with a rattle box attached to its tail and a picture of the Hix machine pasted thereon, and to more fully express our deep regret at this act are now wearing our pants with the seat in front in order to keep the memory of Prof. F. R. Adams perfectly green.

On Electricity.

EDITOR OF NUGGET:

When over twenty years ago Mr. Edison discovered the art of Phonography, and the fact and the accounts thereof were published in the daily papers the people generally regarded it as a mere fake. I made the remark that the discovery might likely be true as not all the wonderful things that electricity could do had yet been discovered. That in my opinion those in heaven could communicate with each other at a great distance, so can we by telegraph. They can talk with and understand each other when a great distance apart, and so can we, by telephone. And I said one other thing is to be discovered, which I think is at this present time approaching solution. Phonography being a part of this discovery which is as follows: I stated then to illustrate the thought in my mind, that in my opinion in twenty-five years, the president delivering his inaugural address in Washington City with this entire audience could be transferred and photographed upon canvas upon the walls of the capitol building in Atlanta or any other city in the United States. In which hall would be congregated the citizens of the place who could see the president and his hearers, and could hear the president's speech having been sent along the line to a photograph in the hall would be reproduced and spoken to, and heard by the audience as delivered by the president.

When this discovery is fully perfected, in my opinion the audience at each end of the line will be able plainly to see each other face to face as they may be able to talk to each other. They can plainly understand what is said at this great distance, from each other. So in my opinion, those in heaven converses with each other, plainly understanding the conversation while yet a great distance apart from each other. Who will make the discovery that while two persons are talking to each other a hundred miles apart, they may at the same time see each other?

DR. N. F. HOWARD,
Dahlonega, Ga.

Said She Didn't Put Glass in the Beans.

MR. EDITOR:

Please allow me space in your columns to answer an article in your paper of the 1st inst., in which I was accused of putting glass in victuals. And for me breaking up glass that is absolutely false, on purpose as I knew nothing of the glass being in the beans until I went to eat my dinner, and then I called my husbands attention to the glass being in the beans.

NANNIE STARGEL.

Where Crime Begins.

An English prison chaplain has made the statement that in all cases of childhood convicted of crime the root of the evil is found at home. Long ago Victor Hugo wrote that "nine-tenths of the crime in France is due to neglected childhood." The whole business of the liquor traffic depends upon the men and women who drink, and we know that were reduced to a minimum. The hope of the world's redemption is with the children, and who shall save the children if not the mothers—the organized motherhood of the temperance reform?—Union Signal.

A Husband's Love.

It is easy enough to win a husband. Most any attractive little dumpling with bright eyes and a cooing voice can gather in a noble husband, but it is pretty difficult to retain him. Noble husbands are thicker than hairs on a dog, but the grand difficulty is to draw out their nobility and secure it at home. If the wife only understands her business she can introduce the soothing racket into her new field of operation and walk away with the whole business. Most men like to be lloyed and soothed. There is something in a man's great, rough, earnest nature that can be won far quicker by gentleness and pie than by logic and the broom handle and a bitious course of reasoning—a milk and bread diet. We have seen a girl who understood her business take a reform road agent by the nose, so to speak, and lead him through life in such a way that he wouldn't know but he was boss of the ranch; so perfect was the deception that when she asked him to bring in a scuttle of coal, or get up in his night shirt and kill a burglar he knew was nothing but a bob-tailed cow a block away, he always went; and felt as though he counted it a mark of special favor that a poor unworthy worm of the dust like himself, should be sought out and delegated to go and chase a lame cow across six vacant blocks clothed only with a wife's authority and a knit under shirt. We cannot exactly describe this magic power and a devoted wife over her husband, and we do not intend to try. But it is an unseen motive, a nameless leverage, that makes a man get up in the dead hours of night and set the pan-cake batter near the parlor stove. A man need not suppose that because he gets up and looks for burglars at night, and is otherwise obedient, it is because he has backbone. It is simply because he is the husband of a woman of whom he ought to be very proud.—Slide! Courier.

Mr. Bok's Advice on Marriage.

A young man recently wrote to the editor of The Ladies Home Journal asking: "What have you to say, squarely and fairly, to a young man of twenty-nine about to marry?" In the October Journal Mr. Bok uses adage for his answer. Its salient points are these: That a man should make a woman of his choice his chum, as well as his wife; that he should show her the highest consideration as well as love her; that he should remember that he owes his wife to her mother, and treat his mother-in-law with respect at least; that he should show her the highest consideration as well as love her; that he should keep his wife informed as to his income; that he should give her a regular allowance and that he should have his life insured in her favor. And above all, that when a young man marries he must remember that he leaves a world of self and enters into a world of another and self.

The Richardson Bros. are on the road showing again, who are expected here some time in the near future. They are an industrious set of men. During the summer some deal in lightning rods and in the fall and winter they dish out mirth and comical jokes.

Hon. James M. Smith, of Warren of Oglethorpe county, who makes 2,000 to 3,000 bales of cotton annually, is the largest man mentioned as a candidate for Governor.

Took His Advice.

After she had been married six months she went to her old bachelor uncle, who believes that a matrimonial alliance is voluntary acceptance of slavery.

"Suffering from the conjugal yoke, hey?" he replied to her presentation of afflictions.

"No, uncle, from the conjugal joke," for she would not humor his prejudices.

"Same thing," with a hardening voice, "but I require details before giving advice."

"Well here is a practical joker of the worst sort. He delights to slip salt into my tea, wake me out of a sound sleep by playing burglar, send anonymous letters threatening to burn the house down; tell me that he has failed, and that the poorhouse stares us in the face; sweats that the house is haunted; anything to scare me and give him a laugh."

"Of course, marriage makes a brute of a man and a fool of a woman. But don't you be soft silly. Go right back at him with his own weapons. Mix glue with his shaving soap. Dust the inside of his underclothing with red pepper. Put sand in his shoes. Change his best hat for one two sizes larger? Pretend to fall in love with some other fellow. Keep him in hot water day and night. I guess that will hold him."

"She acted on this advice. The husband thrashed the uncle. The wife holds that he did just right, and now there is a prospect that they will live happily ever after.—Detroit Free Press.

The Girl to be Avoided.

She is the girl who takes you off in one corner and tells you things that you wouldn't repeat to your mother.

She is a girl who is anxious to have you join a party, which is to be a secret; and at which, because people are very free and easy, you are uncomfortable and wish you were at home.

She is the girl who tries to induce you, just for fun, to smoke a cigarette or to take a glass of wine and you don't know and possibly she doesn't, than many sinners of today committed their sins just for fun.

She is the girl who persuades you slang is witty, that a loud dress stylish, and that your own simple gowns are both dowdy and undesirable.

She persuades you to be familiar with a few young men as an evidence of your charm and fascination, instead of being, as it is an outward visible sign of your perfect folly.

She is the girl who persuades you that to stay at home is very stupid.

She is the girl who persuades you it is a smart thing to be referred to as a gay girl. She is very much mistaken.

And of all others she is the girl who, no matter how hard she may try to make you believe in, her is the girl to be avoided.

We have had several propositions by Gainesville merchants asking us to advertise for them for comparatively nothing, but we have not yet accepted their propositions. When having any space to give away we will distribute it among home people.

When you feel that life is hardly worth the candle take a dose of Chamberlain's Stomach and Liver Tablets. They will cleanse your stomach, tone up your liver and regulate your bowels making you feel like a new man. For sale by W. E. Matthews.

THE NUGGET

DAHLONEGA, NOV. 15, 1901.

Is your house insured? If not why not?

Call Strickland, after an absence of some time down the country, returned home last week.

The best smoke in the south is the "Old Roman." Get it at the "Villa" cigar stand.

The tax collector will be at Davis law ground on the 30th of November instead of the 2nd of December.

J. B. Thomas, the friendly ink slinger of the Dawsonville Advertiser was in the city a day or two this week.

Little Ben Adams who has been in jail for several months for stealing a gun will be sent to the reformatory.

Take the good wife and family to the "Villa" for your Sunday dinner. Clean and rapid service. Try it, you will be pleased.

Hon. G. D. Bruce, Lumpkin county's most active and wide awake representative, was up on a visit home Sunday and Monday.

Dr. Crayn and Mr. Disney of Chicago, who have had an eye on the Briar Patch property for some time, were at Ansonia again this week.

Geo. A. King, who used to stick type at the Signal office was up this week shaking hands with his many acquaintances. He is now at Viena, Ga.

The long dry weather has been a big drawback to farmers who have not yet sowed their grain, and that already sown doesn't seem to be doing any good.

A seventeen months old, sound and gentle, average height weight, dark bay mare for sale. Best of reasons for selling. Address Box 36, Dahlonega, Ga.

The little girl of Frank Christy, after an illness of several months passed away last Friday afternoon and was carried up into Crumby's district the following day for interment.

By reference to another column you will see that the registrars book for Dahlonega will be opened the 20th of November. All who desire to vote in the next city election should take due notice of this.

People should be very cautious about setting the woods a fire. Some one did this last week which caused a vacant dwelling down on John Wacaster's farm, containing a fine lot of hay to be totally destroyed.

H. D. Gurley was selected this week to serve as forman of a most excellent body of grand jurors, all of whom lost no time in looking after the interest of the county, at the same time keeping a watchful eye on evil doers.

We notice this week that Sallie Wehant of this county who preferred going to the chain gang and working six months rather than to let her husband sell his last horse to release her, was in town riding in a buggy drawn by that horse after a six months absence at hard work.

The following item from Garland explains why the people of that community are so sorrow stricken: "We are all sorry for Mr. Columbus Peck. He had bad luck with his mustache. After it was frost bitten the ducks found it and came very near scratching it all off."

The Decoria Paleastro Society will hold its fall term public debate in the College Chapel next Monday night. The question for debate, resolved, "That Lady Macbeth was more guilty in the murder of King Duncan than Macbeth," is taken from Wm. Shakespeare's famous play, "Macbeth," which is very interesting. Speakers: affirmative, J. F. McCracken and G. W. Harbin; negative: R. N. Steed and P. J. Horton. Salutatorian, W. F. Thomas. All invited to attend.

A choice line of fine cigars at the "Villa" cigar stand.

Prof. Stewart represents the strongest companies in America, so you will be sure to get what is due if a fire comes.

Charlie Keer, of Tennessee, who is well known in Dahlonega, is now engaged at the drug store of W. E. Matthews.

L. K. Donavin, a member of Crown Mountain Co. came down from the north last week to investigate his mining interest here again.

John H. Moore has purchased a half interest in the old John Simons business houses in Dahlonega, from Bartow Parks, of Gainesville. B. R. Meaders & Sons own the other half.

President J. W. Adams of the Consolidated Gold Mining Co., while in the city last week took a stroll down to the mines with his friend Mr. Thomson to see what was going on.

We acknowledge the receipt of an invitation to attend the wedding of Miss Mary Alice, daughter of Mr. and Mrs. Charles Burlingame, to Mr. John Chamberlain at Parkersburg, W. V., Dec. 4th.

Some of the "doctored" blockade liquor sold in Dahlonega is so mean and hot that those who drink it can't cover up their heads during the night for fear of burning a hole through the bed quilt with their breath.

The street through the old Tan Yard lot recently ordered to be opened by the city council, didn't remain a public thoroughfare long. At its last meeting it recinded this order and the fence is built and the whole place converted into a lot again.

We return thanks this week to our many friends for their kind remembrances of us in the way of new subscriptions and renewals. We will continue to do our duty by keeping the NUGGET up to its present standard, giving the news, no matter who it pleases or displeases.

Mayor Price has returned to Dahlonega after a weeks visit to Atlanta, going that far with his son Lieut. Fred Price who was on his way to Washington City and Baltimore. The Lieutenant will return to his command early in December after spending the rest of his time here, having returned to Dahlonega again this week.

Mr. Henderson, who was in the employ of the Consolidated Co. for some time last year, has returned for the purpose of assisting Mr. Carlyle in the engineering work of the Gainesville and Dahlonega electric railroad, now being constructed in such a way as to at last convince the doubting ones that we are going to have a railroad sure.

We regret to learn of the death of Uncle Tom Stowers, which occurred in Dawson county one day last week. He was one of her most prominent citizens and a man who was widely known and liked by every body acquainted with him. He was about 88 years of age. The little ten year-old daughter of J. D. Bryson, formerly of Lumpkin, also died in Dawson a few days ago of scarlet fever.

Nearly all of our citizens were surprised the other day when Dr. H. Jones, of this place, returned with his new bride. He was wedded on Wednesday of last week to Miss Theodocia Henry of Spring Place, Ga., by Rev. M. W. Shields. We most heartily welcome the new comer to our city and trust that both their lives will be many years of happiness and prosperity.

They did quite a rushing business at Cleveland in the Superior Court last week. The two negroes who stole the meat in that county and brought it to Dahlonega were each given two years. Pretty hard meet. True bills were also returned against Alvina and Babe Coffee, two negroes of Dahlonega, for some bad conduct while up there. They left our city some weeks ago and are said to be in Galveston, Texas.

Watch out and send your subscription to the NUGGET by the time it expires.

Attorney Huff, of Dahlonega, visited Winder one day last week to argue a case before Judge Ross.

Lieut. S. A. Harris, who was with us a few days ago in Dahlonega, is now located at Fort Snelling, Minn.

We noticed one of our merchants shipping a lot of chestnuts, apples and potatoes to Crawfordville, Ga., the other day where there is none. Oh what a blessing it is to live in the beautiful mountains where we have plenty of all such nice good things.

The reason certain liquor dealers are not reported in Dahlonega the stuff is so mean, we understand that after a person gets and uses any of it he loses all knowledge of what occurred a week before as well as one afterwards. Some of these times they will put a little too much poison in it and kill some one.

The pretended preachers seem to be in a streak of bad luck. One was put in jail at this place last Monday, being Reese Robinson who forfeited his bond at the last term of the court and soon afterwards commenced trying to scatter the gospel, but it has been in effect a feeble way as to have no effect on the court officers, nor lawyers of this county.

A couple of sad messages were received by a couple of college cadets at this place last Friday. One was to Carter Edmonson from Fairfield, Ga., stating that his father died suddenly, and the other was to Mr. Horton relating the sad death of his father by a boiler explosion at Winder, Ga. Both the young men left on early carrying with them the heartfelt sympathies of the entire community.

Uncle John Carroll, manager of last week's possum supper requests us to return his thanks for the patronage received, being \$12.75 which goes for the benefit of the Colored Old Fellows after the expenses are paid. We suppose the town authorities are also thankful as the amount received by them in costs and fines by evil doers there that night, including the one furnishing the refreshments, was \$40.00.

The other day Ed Anstin, a negro as black as the ace of spades, and a supposed white woman represented day light and darkness by walking the streets side by side, attracted much attention, causing some to feel like casting a few flints at the lovely couple, and in order to avoid trouble the woman went before Squire Worley and gave him 50 cents to copy an old badly worn affidavit stating that she was a negro.

Green McDougald, of Dawson county, was captured in the outskirts of Dahlonega last Friday together with a four gallon jug about three parts full of choice mountain dew. He was carried before mayor pro tem Lilly Saturday and fined \$10 and costs. After paying up he demanded his jug which Marshal Harrison told him that he could get by calling when court adjourned. McDougald went off and the last heard of the man he was going across Sugar Hill Hill giving two hops and a jump, looking back every other one to see if the revenue officers were coming.

McDougald had sold out a lot the day before and was in with his second load. The man failed to return for his jug according to promise. Use to when liquor was captured of this kind the city marshal and his friends used it but a few years ago an ordinance was passed preventing this so upon demand of T. S. Deputy Marshal Grizzle the jug and contents were turned over to him to be put into the hands of the proper officer at Gainesville. At the right time we will see if there is no chance to get the city fathers to repeal this ordinance so as to give home people a chance at any sweet mess liquor that may hereafter be captured by the city marshal.

Lewis Keith has gone to Alabama this week.

Miss Lizzie Chapman has been up on a visit this week from Cuba, Ga.

It rained for the first time last Tuesday just enough to lay the dust.

Rev. D. J. Blackwell will preach at the Presbyterian church next Sunday at 11 o'clock.

The justice court day at Nimble will have been changed from Saturday to the 4th Friday of each month.

Mayor pro tem Lilly's manner of handling the scales of justice cause many voters to want him to be Dahlonega next mayor.

The one who has been stealing wood from parties down on Park Street had better look out else there will be trouble in the camps.

The Methodist church was crowded last Sunday to hear Rev. Wallace Rogers deliver his last sermon, which was full of interest and very deep thought.

Last Tuesday Deputy Marshal Grizzle lodged J. J. Turner, Geo. W. Turner and Frank Black charged with violating the Internal Revenue laws in jail. All of this county.

Albert Henson, a lad of about 14 summers, cut a big cash in Jim Franklins arm last Wednesday with a knife. The marshal ran him as far as the boys dormitory, but the boy succeeded in escaping.

We will state for the benefit of enquiring ones that the Consolidated Co. has never been placed in receivers hands. Vice President Breymann paid off all the indebtedness against it that we know of.

Since making up our editorial page Mr. Hutchins has brought a lot of gold ore in a pan from lot 810 containing some of that referred to and the big pieces of gold therein caused much excitement.

Solicitor Charters has certainly made it hot for violators of the law this week, discharging his duties without favor or affection in any manner whatever faithfully and honestly, knowing no one when it comes to carrying out the law.

The visiting attorneys in attendance upon our Superior Court this week are, H. H. Dean, Howard Thompson, Ed Quillian, B. P. Gaillard, W. F. Findley, of Gainesville; F. L. Bryson, of Dawsonville, and Judge J. J. Kinsey, of Cleveland.

Last Monday the town was full of bailiffs and other persons wanting a job in court. They commenced coming in at 12 o'clock the night previous reminding us of war times. Some wore uniforms, while others were covered in Prince Albert coats, jeans vests and pants making them very attractive.

One day this week while Dr. Howard was having a mantel displaced at his residence in search of dead rats which he thought might be behind it, found a well preserved pocket book containing a note made to Hugh T. Williams by Wm. Mayhew dated 1840, who died near Dahlonega, many years ago.

Manager Moore, of the Crown Mountain, says that this mine is coming up fully to their expectations, really more so since a recent partial clean up of the Huntington mills have been made, as the mine is producing more gold at this early period of its working than was expected, showing that ultimately Crown Mountain will pay hands some dividends.

Tuesday after court closed Cicero Rayon, one of the special jurors was arrested by U. S. Deputy Marshal Grizzle and confined in jail, charged with perjury. Some time ago at an illicit distillery he swore that he didn't know a certain man who ran off from it, and the government officials expect to prove that he did, for the fugitive only lived a half mile from defendants house.

Court Proceedings.

Florence Curtis vs. Floyd Curtis—Libel for divorce. Granted. State vs. John Holcomb—Misdemeanor. Fine \$10 and cost.

State vs. John Basley—Misdemeanor. Fine \$15 and cost. State vs. J. W. Walker—Misdemeanor. Fine \$10 and cost.

State vs. John Hutchins—assault and battery. Not pressed upon payment of cost.

J. W. Thomas vs. Consolidated G. M. Co.—For damages. Verdict for defendant.

State vs. John Anderson—Misdemeanor. Fine \$10 and cost. I. F. M. Whelchel vs. John L. Poor—Ejectment. Verdict for plaintiff.

State vs. Jack Townsend—Assault and battery. Fine \$10 and cost.

Geo. A. King vs. J. W. Woodward—Complaint. Dismissed at plaintiff's cost.

J. A. Edwards vs. B. C. Ansted—Complaint. Dismissed at plaintiff's cost.

Joanna Gillispie vs. Alex. Gillispie—Libel for divorce. Verdict for plaintiff.

State vs. Sam Teal—Assault with intent to murder. Not pressed upon payment of cost.

Wirtie Brady vs. Consolidated G. M. Co.—Damage. Settled by agreement of parties.

G. E. Dale vs. B. C. Ansted—Complaint. Dismissed at cost of plaintiff.

Emma Pachel vs. M. F. Whelchel—Complaint for lard. "Mistrial."

Rutha Free vs. Goodman Free—Allimony. Dismissed at cost of defendant.

State vs. A. W. Irvine—Misdemeanor in two cases. Not pressed as to one, fine \$10 and cost in the other.

Mary A. E. Waters vs. J. W. Woodward—Complaint for lard. Verdict for plaintiff, giving her one-fifth and balance equal to the other four interested in the division.

J. C. Quillian & Bros. plaintiff in fi. fa. vs. Wm. Tolbert in fi. fa. and J. B. Anderson claimant. Verdict for claimant.

State vs. Dolph Sallins—Adultery. Fine \$40 and cost.

State vs. Jim White—Misdemeanor. Fine \$20 and cost.

State vs. Will Coley—Conceal weapons. Fine \$20 and cost. State vs. Flora Henson—Fornication. Not pressed.

That 'Possum Supper.

The 'possum supper, given at the colored Methodist church the other night for the benefit of the Colored Old Fellows of this section, was a right lively affair. Long before night six or seven 'possums were put on the table surrounded by many other good eatables, and by the time every thing was in readiness nearly all of the visitors had touched up their appetites by the use of quite a quantity of blockade liquor brought in for the occasion, and were feeling good. When the door was opened both whites and blacks—a Roosevelt gathering—was present. The opening began by a "solo" on the banjo familiarly known as "rabbit-in the bush and the wood pecker soup." Then the devouring of the 'possums commenced by all present. H. A. Watson, a white man, ate so much that it became painful to him and not knowing the signal of distress of Odd Fellows endeavored to give the alarm by throwing a half moon pie out at the window, which hit another man in the face, having the desired effect, by being answered by the casting of a flint through the opening by some one. In the mean time the colored people raised up a "dispute." Henry Underwood acted as assistant to Able Grand and commenced the initiation of new members by knocking a female down with his fist. This caused Uncle John Carroll, the ring master, to get angry, who commenced jumping up and down with an open knife, talking faster than we can tell it. At the same time sister Narcissa Stevens occupied one corner of the church with her head laid back on the bench leading a choir of families in yelling and screaming at the highest pitch. The marshal arrived and at once ordered some one to stop the leaders mouth and spread a handkerchief over her face. While this was going on women could be seen gathering up their children and jumping out at the most convenient window, for it looked like every one there nearly was either fighting or trying to. Manuel Howell was occupying a seat on the stove at the time and he ran out at the door and all the way home three miles without stopping. All this and much more took place in a building which is called by some the "Lords house;" but we don't believe he has anything to do with it. And this is the result. Eb Simms, Osburn Austin, Carnellus Goudale, Nez Stevens all had to pay a fine of two and cost the next day. Harris Bruce one and cost, and Henry Underwood three and cost, while Watson the pie man, left for other parts.

Lyceum Attractions.

Two more dates have been arranged for attractions of the Dahlonega Lyceum Association. Dr. L. G. Broughton, the noted preacher and lecturer of Atlanta will lecture on next Monday evening, November 19th. Everybody has heard of Dr. Broughton and will want to hear him. As a lecturer he has but few equals in the whole country.

On Saturday evening, November 23rd, The Quaker Male Quartette will appear. This is a splendid musical organization. There are two ladies and four gentlemen in the company. The people of Dahlonega have not been so favored in a long time as they will be by both of these entertainments.

Any others wishing course tickets can get them of Prof. Colvin.

Judge Huff has been notified of the granting of pensions to the following persons in Lumpkin county to-wit: Mrs. Louise Self, Mrs. Sarah Chester, A. M. Hyden, Geo. W. Clements and James Elkins. Those refused: A. B. Barnet, Mary A. Williams, Mary Anne Bortfield, W. B. Bruce, Sarah A. Wilson, Nancy Chapman, D. M. Davis, John L. Gamlin, Geo. W. Burns.

Ten dollars reward for any person selling gold from the Calhoun mine in this state.

S. M. WILSON.

A domestic mystery that is worrying the New York Press is why a woman can't understand how a man will stay up every night for six weeks running all over town trying to make votes for a candidate he doesn't know, but gets hopping mad if he has to run across the street to get some paragon for his own baby.—Columbus Sun.

A certain person who left our place a few months ago for Tuskegee, Ala., sent back to F. L. Reese, doing business in Dahlgren, for a lot of merchandise, stating that he could buy goods here cheaper than he could there. This is some food for thought for those who are always grumbling about goods selling so high in Dahlgren.

There should be no hesitancy in the legislature in the passage of the law making it a misdemeanor to buy or sell votes at a primary election. In the primary, honestly conducted, the welfare of this state is largely bound up and it seems absurd that there should be a penalty for vote buying at regular elections and none for the same offense at primaries.—Griffin Call.

To remove a troublesome corn or bunion: First soak the corn or bunion in warm water to soften it, then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing thoroughly for five minutes at each application. A corn plaster should be worn for a few days, to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by W. E. Matthews.

Judge Seabrooke appointed a rice plantation negro named Andrew Camal upon the board of registrars of Bryon county. His excuse for making the appointment is, that he could not find a white republican in Bryon, and that the law gave equal representation to all parties on said board. Representative Williams of Bryon, says there are several white republicans in his county, but that Judge Seabrooke contends that they are simply republicans in national politics and democrats in state and local elections.—Marietta Journal.

The too common belief that an education can be acquired from text-books and from teachers who don't know any more than the text-books of the common schools contain, if that, is erroneous. Every boy and girl should have a common-school education. The State provides for that, and therefore expects it even if it does not always compel it. But there are other things essential. A man may have an education and still not be a respectable, a useful, much less a valuable member of the community. On the contrary, there are many members of the community who have very little, if any, schooling who are useful, important, honorable. They have been educated in other ways.—Pittsburgh Star.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. E. S. Shipp, of Poteau, Ark. "It cured me of bloody flux, I cannot speak too highly of it." This remedy always wins the good opinion, if not praise, of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere. For sale by W. E. Matthews.

BARBER SHOP.

J. F. CASTLEBERRY, Proprietor.

FOR HARNESS—entirely new and different. It is just what you need. It is easy to use, and you will be astonished to see how quickly it heals sores.

It's this way:

You can burn yourself with Fire, with Powder, etc., or you can scald yourself with Steam or Hot Water, but there is only one proper way to cure a burn or scald and that is by using

Mexican Mustang Liniment.

It gives immediate relief. Get a piece of soft old linen cloth, saturate it with this liniment and bind loosely upon the wound. You can have no adequate idea what an excellent remedy this is for a burn until you have tried it.

A FOWL TIP. If you have a bird afflicted with Roup or any other poultry disease use Mexican Mustang Liniment. It is called a sure cure by poultry breeders.

Called to Preach.

A negro who had acquired a slight smattering knowledge proposed to enter the ministry. He consulted an old negro who, like most of that fast disappearing class had good practical sense and little patience with the "new issue" negro.

The aspirant for clerical honors told his venerable friend that he was called to preach. He was sure of this because in a dream he had seen in the sky three golden letters, "G. P. C." He could make these mean nothing but "Go Preach Christ."

The old man heard the young one patiently and then said: "Jahnsen you sho" is called, but you don't read that call right. It don't mean "Go Preach Christ." It means "Go Pick Cotton." Dat's what it means, you trifling rascal."—Luling (Texas) Enterprise.

SHERIFF'S SALE.

Georgia Lumpkin County. Will be sold before the court house door of the county of Lumpkin on Tuesday, December, next within the legal hours of sale to the highest bidder for cash the following property to-wit: Lots of land numbers 121, 122, 123 and 200 all in the 12th dist. and first section of Lumpkin county Georgia, levied on as the property of Joseph E. Rider by virtue of and to satisfy a fi. fa. issued from the 85th dist. G. M. in favor of The Frank W. Hall Merchandise Co. vs. the said Joseph E. Rider. Levy made and returned to me by Joseph W. Hall, L. C.

Also at the same time and place and upon the same terms the following property to-wit: The one and one-half interest in and to city lots numbers 41 and 43 in the city of Dahlgren, Lumpkin county Georgia according to the plan of the town of Dahlgren. Levied on as the property of Mrs. Elizabeth Crane by virtue of and to satisfy a fi. fa. issued from the Justices Court of the 97th dist. G. M. of Dawson county Georgia in favor of F. M. Williams vs. B. A. Crane and Elizabeth Crane. Levy made and returned to me by E. Carroll, L. C.

Also at the same time and place and upon the same terms will be sold lots of land numbers 1083, 1029, 1027, 1020, 1081 and 981, all in the eleventh dist. and first section of Lumpkin county Georgia to satisfy a fi. fa. issued from the justice court of the 87th dist. G. M. of said county, one in favor of the First National Bank of Gainesville, Georgia for the use of H. D. Lugsdall, transferee and one in favor of J. A. Beck for the use of G. McGuire, transferee. One in favor of Elijah Hampton for the use of G. McGuire, transferee. All of said fi. fa. levied on the property of said F. M. Williams, levied on all of said fi. fa. made and returned to me by J. C. Williams, L. C. This November 5, 1901. J. M. DAVIS, Sheriff.

CITATION.

Georgia, Lumpkin County. William J. Worley, administrator with the will annexed of the estate in Georgia of Charles D. Griggs, deceased late of Volusia county, Florida, having filed his petition for discharge, this is to call all persons concerned to show cause against the granting of such discharge at the regular term of the court of Oglethorpe for said county of Lumpkin to be held on the first Monday in February, 1902. This the 4th day of November, 1901. Yours truly, Ordinary.

Some of the laborers, who have been crying out low wages in Dahlgren after going down to Gainesville have found out that they are better here than there.

Application For Charter.

Georgia, Lumpkin County. To the Superior Court of said county: The petition of Robert J. Swain, J. F. Moore, H. C. Wheeler, G. D. Bruce, John H. Moore, J. E. McGee and W. A. Charters, all of said county, respectfully shew:

(1) That they desire for themselves, their associates, successors and assigns, to become incorporated under the name and style of "The Lumpkin County Land & Improvement Company."

(2) The term for which petitioners ask to be incorporated is twenty years, with the privilege of renewal at the end of that time.

(3) The capital stock of the incorporation to be two thousand and one hundred dollars (\$2100.00), divided into shares of fifty dollars (\$50.00) each. Petitioners however ask the privilege of increasing said capital stock from time to time at the election of the stockholders of said corporation to a sum not exceeding in the aggregate of fifty thousand dollars. And petitioners desire the right and privilege to receive in payment of subscription to said capital stock, money or property or other thing of value suitable to the uses and business of said corporation.

(4) The whole of said capital stock (two thousand, one hundred dollars) has already been actually paid in, in the purchase of lot of land number nine hundred and fifty-two (952) in the 12th district and first section of said county of Lumpkin and the improvements made and to be made thereon before the granting of this Charter, which lot of land petitioners will cause to be conveyed to said corporation immediately upon the organization of said corporation.

(5) The object of the proposed corporation is pecuniary profit and gain to its stockholders; and it is proposed that said corporation shall carry on the business of buying and improving and selling the same, dealing in city and county real estate and carrying on a general estate business, acting as agents for others in the sale of real estate, and charging a commission for such sale, caring for property, and generally doing all such matters and things as may pertain to a real estate exchange.

(6) They desire the right to contract for, lease buy and hold such real estate as may be useful or proper in the conduct of their business and to sell, lease, mortgage or otherwise dispose of or encumber the same; to issue bonds, notes or other evidences of indebtedness as the interest of the corporation may require.

(7) They desire, as said corporation to have the right to sue and be sued, to have and use a common seal, to make and prescribe such regulations as a bylaws for its government as may be needed or proper and not contrary to law; to elect and elect a Board of Directors and such officers as are usual and as may be prescribed by such bylaws; and they further desire all general powers and privileges which may be conferred on and are incident to corporations and said State of Georgia, which by law are chartered by the Superior Court.

(8) The principal office of said corporation shall be in the city of Dahlgren, said State and county.

Prepared for Accidents.

An old lady decided for the first time to have her picture taken, she went to the photographers and after going to the dressing room to prepare herself, came out with her dress skirts tied tightly around her ankles. Under this disadvantage, she wiggled in front of the camera.

"Why madam, what is that for?" asked the photographer. "I hear" said the old lady, "that those things take you upside down."

To obtain a rural free delivery you must present a petition, addressed to the First Assistant Postmaster General, Rural Free Delivery Division. This petition should be signed only by heads of families and should mention the number in each family over sixteen years of age. It should set forth the nature of the country where the delivery is desired, whether densely or sparsely populated, the principal occupations of the people, the character of the roads, and the distance which, under existing conditions, each person has to travel to receive his mail, and should be accompanied by a map or plat indicating the route or routes proposed. Let the citizens from here to Walnut, Ga., in Chastate district, make an effort for one.

Chamberlain's Stomach and Liver Tablets cure biliousness, constipation and headache. They are easy to take and pleasant in effect. For sale by W. E. Matthews.

Grand Jury Presentments, Oct.
Adjourned Term 1901.

We the grand jury chosen and sworn respectfully submit the following report:

We entered upon the discharge of our duties by assembling ourselves together and received the charge of His Honor, John B. Estes, judge presiding.

We organized by the election of Hiram D. Gurley, as our foreman, and the election of Virgil A. Higgins and Joseph W. Woodard as clerks, with Larkin Walker, as constable, to wait on the body.

Appropriate committees were appointed and we proceeded with our business as the law directs.

In a body we visited the jail and Court House and take pleasure in reporting that the jail is kept in a very reasonable sanitary, and clean condition. Think that Sheriff Davis is doing his industrious duty as an officer of the county in the discharge of his official duty. We found some repairs and work upon sewerage necessary and recommend that Judge Huff, Ordinary of the county, proceed to do such work as is necessary for the cleanliness of the jail and other purposes as in his discretion is necessary, exercising his own judgment in the matter.

We have received an elaborate report from the Ordinary, such is an unusual thing, that we regard it as a very useful document in aiding our body to understand the workings of the duties of his office and find his report very satisfactory in explanation of the discharge of the duties of his office. He is making as a very industrious and judicious officer and we commend his acts unanimously.

We here append the report in full for the information of the people of the county:

Lumpkin Superior Court, November Adjourned Term, 1901. To the Honorable Grand Jury of said county:

I, John Huff, Ordinary of said county, beg leave to submit to your honorable body the following report as to the financial condition of said county:

At the beginning of the year 1901, when I took charge of the office of Ordinary we had on hand the following assets:

Received for convict hire April Term of Court \$56.90. Cash in hands of treasurer January 1st, 1901, \$357.42. April 6, cash paid treasurer by John F. Sargent, tax collector, \$18.81. Cash received by me as ordinary from rent of court house, for postoffice and stand rent received by me during this year up to the 1st day of October, 1901, \$141.00. Total amount of cash on hand and received by the county treasurer since January 1st, 1901, \$597.13.

As against this we had as outstanding claims for which no warrants had been issued for the year 1900 \$362.86. (List of the above claims having been published in the Dahlonega Nugget of Feb. 22, 1901.) Account of W. H. C. Tate, ex-ordinary for services for the year 1900, \$73.40. Outstanding warrants issued by W. H. C. Tate, ex-ordinary, and which had not been paid by the treasurer, being warrants for the year 1900, a list of the same having been published in the Dahlonega Nugget Feb. 22, 1901, \$113.56. Total outstanding indebtedness Jan. 1, 1901, \$549.82.

The above amount \$44.00 received by me has been turned over to the county treasurer and my vouchers for the same are hereto attached and to which reference is prayed by your honorable body. I also present herewith vouchers for \$56.90 received for hire of convicts.

Since the 1st day of January, 1901, I have issued warrants on the various funds of the county as follows:

County fund	\$1129.54
Jail fund	719.44
Bridge fund	3436.52
Pauper fund	339.57

Total orders drawn up to Nov. 5th \$5610.07

You will perceive that the county had on hand for the year 1900 assets amounting to \$436.13 and since that time I have received the sum of \$101.00 for rent and convict hire and that the liabilities of the county at the beginning of this year was \$519.82, and at the beginning of this year the county was in debt in the sum of \$113.67 of which amount I have paid the sum of \$101.00 with rent and convict hire which will leave the county in debt up to the 5th day of this month in the sum of \$5622.76, this not including the expenses of this term of the court and a few other little outstanding claims, bills for which have not been presented for payment, and by the first of the year our indebtedness will be about \$6000.00. To meet this I have levied a tax of \$6.65 on the \$1000.00 worth of taxable property which said tax will about pay the above indebtedness and leave the county clear of debt and an empty treasury on the 1st day of January, 1902. But after consulting several of the largest tax payers of the county I thought it best not to burden the people by making the tax rate higher this year, but that in the spring the county could borrow money as it has done this year and with less rate than this year, pay back the borrowed money and leave a small surplus in the treasury. I have been compelled to borrow the sum of \$1000.00 this year to meet the current expenses of the county and that amount is included in the above stated indebtedness of \$5622.76. The cost of the new bridge at Nesler's ford is also included in the above amount of indebtedness, the cost of said bridge being \$2089.00. The advertisement of this bridge was running in the papers when I came into office and I let the contract early in January before I had time to ascertain the exact condition of the county treasury, and had I known the same had been so short of funds I would have no doubt deferred the building of this bridge until next year, at least until the county's finances had caught up a little, but the bridge is now completed and I think that it is an ornament to the county as well as the most substantial bridge in the county.

Sworn to and subscribed before me this 11th day of Nov. 1901.
WM J. WORLEY, J. P.

We congratulate the county upon the many good bridges throughout the county, and recommend that the Castleberry bridge across the Etawah receive some attention at this time in widening the road at the approach and building up the same in such a way as to avoid the uneasy way of getting upon the bridge.

We have received a petition from the citizens of Chestate district to build a bridge at the Jack Ash ford and we have duly considered the matter and do not feel that we are now financially able to recommend the same at this time, although a very reasonable demand is made upon us.

We recommend that the ordinary take such methods as is necessary in changing the road that leads to the Nesler Ford bridge by surveying the changes and if it is practicable to proceed at once, to make and repair the road that will make it the best route in going and returning from Gainesville. Also to ascertain by survey the changes necessary for the road beyond the bridge at the same point mentioned. We also recommend respectfully to the city council to cooperate in this enterprise to make such changes as are necessary inside of the incorporation.

We call attention to the dangerous condition of the Tay bridge and recommend that it receive the prompt attention of the ordinary.

The roads in Nimblesh and Hightower districts are reported in a deplorable condition, and should at once receive attention by the commissioners.

The roads throughout the county are too narrow. The road need widening and the rocks removed, and we enter our protest against water breaks.

The roads throughout the county are needing more work generally, and enjoin upon the ordinary and commissioners and overseers the necessity of placing the roads in good condition and require all hands to put in their full time.

A special committee was appointed to visit the pauper's home and we here append its report:

We find the pauper's farm and home in reasonable good condition. We find four inmates at the home. About 100 bushels corn, about 1000 birds fatted, 3 loads of shucks, 75 pounds of meat, 1 bushel dried fruit, 22 cans fruit, 11 gallons vinegar, 1 bushels onions, 1 bushel onion buttons, 25 gallons pickled beans, 1 bushel dried beans, 1 barrel kraut, 100 cabbage, 1 load pumpkins, 42 pounds tobacco, 8 bushels Irish potatoes, 25 bushels sweet potatoes, 2 cows, 3 hogs, 2 chickens, 2 plow horses, 7 plows, 2 weeding hoes, 1 shovel, 1 mattock, 11 bed quilts, 4 feather beds, 8 straw beds, 4 bed sheet, 4 pillows, 4 sheets, 2 counterpanes.

W. T. DOWRY,
E. D. GADSDIS,
MILES W. BEARY,
Committee.

We recommend that the following three citizens of our county be appointed to act in conjunction with ordinary John Huff in disposing of, by sale or otherwise, as they deem to the best interest of the county, the present pauper's home, and such property on the same as they deem best, and that they purchase with the proceeds arising from such sale, a home for the paupers of the county which will be more adequate to the needs of the county for this purpose, and we recommend further, that if said commissioners and said ordinary think best, that they be empowered hereby to add such sum from the county treasury to be raised by taxation, to the sum arising from the sale of the present pauper's home, as they may think proper, in buying and equipping a new home. Committee: Ordinary Huff, chairman, H. D. Gurley, W. H. C. Tate, Daniel Davis.

We find vacancies in several of the districts of the county of Notaries Publics and we recommend the following appointments:

Hightower District, No. 1252, Jacob N. Satterfield. In Nimblesh district, \$40, John A. Berry. In Wahoo district, 1051, W. P. Gillespie. In Dahlonega district, G. H. McGuire.

We recommend that the following accounts be paid: H. L. Coffey, in the case of Jonas Woody, \$5.00. H. L. Coffey, in the case of James A. Beck, \$5.00. R. J. Swan, in the case of Henry Southard, \$5.00. W. S. Huff, two cases, Will Wright and L. C. Prewitt, for the two cases \$10.00.

The finance committee has made its report to this body and we herewith append the report to our presentments.

REPORT OF FINANCE COMMITTEE.
October, 1901.
To the Honorable Grand Jury of Lumpkin County, Georgia, October Term, 1901.

We the finance committee chosen and sworn beg leave to submit the following report:

In our examination of the tax receivers digest we find it correct, reflecting much credit on tax receiver J. L. Healan and his assistant.

We find the taxable property of the county returned for taxation amounting to \$8011.29.
Professional taxes \$1.75
Polls taxes \$12.82
This does not include the take-ins.

We have examined the books of the clerk's office and find them neatly and correctly kept. We find from the book of fines for the April term, 1901, that the Solicitor General, Clerk and Sheriff's office.

(Continued on 4th page.)

THE NUGGET.

DAHLONEGA, NOV. 22, 1901.

Is your house insured? If not? why not?

Twenty true bills were returned by the grand jury of this county last week against 26 defendants.

(Morning after the fire) "My, how glad I am I took out that policy! Without it I would be a ruined man to-day."

F. L. Reese and W. P. Price, Jr., will form a copartnership in the mercantile business first of January and open out on the public square.

Parties having any legal sales to take place in January will please send them in for next week we wish to be with Santa Claus Christmas week on a serenade and will not have time to get out any issue during the holidays.

Smith, the Florida Constitution man, has at last paid Miss Wallace her months salary, causing the family to have more confidence in him. He is like most of printers—good for his debts when having plenty of money.

Last week we received a letter from one of our patrons at Amanda, O., dated Nov. 11th, which shows how anxious our northern friends are to get every number of the Nugget, so much so that some of them renew a month in advance. He says: I notice my time is out December 7th. As I do not wish to miss the paper I enclose \$1.00 for the renewal of my subscription."

Absolutely pure candy made by Block 23 pounds for 20c., full cream cheese fine 17c., fresh oyster crackers 10c., fine grade buckwheat candy 10c., the prettiest piece of table linen ever shown in Dahlonega 54c., worth 75c., hem stitched sheets 72 and 90 inches 67c., the cloth not made is worth 69c., linen drawn 40 and 55c., worth 55 and 70c., a few pairs of fine shoes for men and women at a very low price. Don't forget our Christmas stock will be a dandy December 10th. Call and see our cash prices before you spend your money. B. R. MEADERS & SONS.

The following letter from one of our friends in the north received by Fridays mail, reads as follows: "Don't be worried over the loss of one subscription. Enclosed find a 'prescription' for those many aches and pains, which I am sure will cure you if properly applied. Take off those mourning weeds, rejoice and give thanks that while you have lost one you have gained two. Remember that I am a physician and am responsible for any prescriptions and from personal experience I know the curative effects of the enclosed." The "prescription" was two one dollar bills. Thanks. We are getting better. We will keep your memory green by a fond recollection of you in our heart.

What is getting into some of the Baptist preachers? We understand that the members of Pleasant Ridge church have decided not to let Bro. Phillips preach in their house any more. Bro. Phillips is the one who occupied the stand at this church when three or four of the boys carried a well filled jug into the yard and drank, talked, hollowed Amen, and did everything else nearly except to spurt the liquid into the preachers face, causing him to get mad, swear out a warrant and have some of them arrested before they had time to get over their spree by next morning sun rise. Later, it is reported that Mr. Phillips wrote a letter to the Squire stating that Adams, one of the defendants, was not included, which was turned over to the sheriff in the absence of the one to whom the letter was directed. Before the grand jury it is said that the preacher swore that he didn't write this letter and bills were returned against Adams and all the rest. And now they don't want to see Bro. Phillips in their stand any more.

Mrs. E. W. Matthews has returned from a visit to Atlanta and Marietta.

Miss Lott, of Houston, Ga., spent a few days in Dahlonega this week.

If you want to enjoy a good college and good schools come to Dahlonega.

Dr. Wheelchel after having a touch of the grip is out again on his rounds.

The North Georgia Conference is now in session at Rome with the usual large attendance of preachers.

Dr. Babers, of Dawsonville, Ga., visited our office last Tuesday in company with attorney Haney of the same place. We were absent at the time and are very sorry of it.

Dr. Broughton, of Atlanta was called to lecture last Monday night, but didn't come. His place was filled by Lucius Perry Hills who interested a large audience till a late hour with many poetic recitals.

The amount of fines imposed last week at the Superior Court was \$367 besides the cost. Herebefore the most of the trouble was caused by liquor, but it was different this time. Liquor was not in it much.

This section was visited with the first snow of the season last Tuesday, being so early that it caught some of the trees in their summer suits. It snowed for six or eight hours. But it didn't remain with us long.

It will be seen that the last grand jury desired the present paupers home sold and a better one purchased. This is a good idea for this one is the poorest place in the county and can never be made self sustaining.

We understand that one of the druggists stated that he wished the council would close up the drug stores on Sunday. Why don't those in authority do it and let the druggists and their clerks have one day out of seven to take rest.

A short time ago a certain young man at Porter Springs came out with his eyes dressed up in specks. Not long thereafter his sweetheart did likewise. This proves that she loves him truly and ere long no doubt their hearts will be beating as one.

Col. Lilly has been petitioned by quite a number of voters urging him to allow his name to be used for mayor. This shows how anxious the people want him to serve them, for it has been a long time here since the voters have petitioned any one to run for office.

One day last week in Dahlonega while the water was frozen over a pointer dog got a rock and dropped it into a bucket and broke the ice so it could get a drink. Can any one beat this? This was told us by the person owning the dog and who is perfectly reliable.

The following bonds were forfeited at the last term of Lumpkin Superior Court to wit: John Anderson, W. J. Crane, C. M. Eldridge, Bud Blackwell, W. J. Crane, Gordon Free, W. M. Adams, Jim Anderson, Tom Sallins, John Anderson, F. A. Crane, Will Rail, John Chaten, Frank Little, Jack Johnson.

Last Saturday Cicero Raven, of this county, was tried and bound over by U. S. Commissioner Baker in a bond of \$500 for his appearance at the federal court in Atlanta, who is charged with perjury as stated in last weeks Nugget. He made the bond and we have no idea what the result will be.

Our citizens will soon be called upon to select a mayor and three new aldermen to fill the places of those whose terms expire. Let all voters lay aside any personal differences that may exist and fill these places with good men who are willing to keep a watchful eye over the interest of the town and do it for nothing. All know this when they are elected and if they fail to do their duty they are to blame just as much as if they were getting big salaries.

At one time last week the county jail held fifteen prisoners.

Miss Belle Tharin, one of the public school teachers, was painfully injured one day last week by falling down the stairway in Col. Bakers residence, cutting a considerable gash on her forehead and injuring her hands by endeavoring to catch.

W. G. Campbell has moved from Dahlonega to White county and is now in charge of the Thomson mine. Mr. Campbell is an old hand at the business and will make it profitable to its owner, if the gold is there, and we are of the opinion that it is.

Remember that you cannot get the Nugget and Atlanta Semi-Weekly Journal both for \$1.50 after the first of January. Then you will have to pay \$1.75. Send in while the rates are low if you wish to keep posted both in home, state and foreign affairs.

Parties were in Dahlonega last Saturday soliciting help for Dan Walden who lost his house and its entire contents together with a couple of bales of cotton and two hundred bushels of corn by fire the other night, near the line of Hall and Lumpkin counties. The good people responded liberally as usual. The cotton was in the upper part of his house and caught from the lamp in the hands of one of his children.

We notice that the last grand jury recommended that one of the town bailiffs be paid \$5.00 in two cases for going to other districts and attending inquest trials. The law fixes this fee at one dollar and if the coroner would get the bailiff of the district where the inquest is held to attend to this matter there would be no use if paying out this extra money. Really it is the local bailiffs duty, who are justly entitled to the fee.

The other day after a certain country young lady visited town she filled her bosom full of old stardged rags and undertook to look like some of them do here so as to be able to put on a different appearance that night when her lover, to whom she was engaged to be married, came. Soon after dark he arrived and they met at the door with a fond embrace and a sweet kiss, as had been the custom for many weeks. Then both took their seats. The ladies bosom was sunk in like a foot ball coming in contact with a number 6 shoe, without her notice. The man saw it and was anxious to know what it meant but she was unable to explain on account of embarrassment and he left thinking maybe he had fractured his sweet hearts breast bone. And this broke up the match.

Last Saturday evening J. B. Witt, stepped down and out as book keeper of the Union Store Company, owned by some of the members of the Consolidated Co., and Dr. Stansbury, who has been in the employ of the Company for some time, now occupies the position. Dr. Stansbury has been here for more than a year and has always shown himself to be a nice, clever gentleman in every respect. We don't mean to leave the inference that Mr. Witt does not have all these good qualities, for he has been too clever for his own good, which is probably the cause of his being out of the company's employ now, besides being unable to secure several hundred dollars in gold ore he let the president have to carry up north for a show in order to try to boost the Hix process. It's right amusing to us to think about this transaction. When Mr. Witt was taking this rich ore out of the Findley mine, belonging to the company, Mr. Adams, the president suggested that the company be allowed to place a man at the chute to see that no gold was misplaced. Then as soon as the best ore was taken out he, by his slick tongue, induced Mr. Witt to let him carry it north for a short while. That was some time in June, and Mr. Witt has been unable to either get his ore or money for it up to the present.

If you want your ad seen place it in the Nugget.

See ad. of house and lot for sale in another column, first block from the public square.

Last week a little girl came out to the jail from the mountains and picked the banjo and sang to all present free of charge.

A couple of parties have selected the Spout Spring near town as a suitable place to meet and exchange words of love without being molested.

This is my last notice in regard to your account. The next will be through the officers in whose hands the accounts will be placed for collection. F. L. REESE.

The city registration book is now open and will continue so until the night of the 14th of December at 9 o'clock. The convention will be held about the 6th and the election takes place the 21st.

We notice down in Georgia that a gentleman donated a spot of ground for a cemetery. Can't some of the land owners do that here? There is not a suitable free place in the cemetery for the remains of any poor person.

At E. E. Grissons you will find onions at \$1.00 per bushel, choice apples 80 cents, chestnuts for \$2.00 per bushel, Irish and sweet potatoes, boys shirts and pants, gents underwear, and other goods too numerous to mention, all for cash or hatter.

Jim Lee, who was put in jail for a malicious prosecution last week until the cost is paid will have to stay there a long time unless excused by the judge for she is very poor and unable to raise any money, much less that which is required of her.

Not many months ago a certain man came to Dahlonega with the seat of his pants, resembling an old worn out "sifter," in search of a job. Since securing one and is now able to hide his nakedness he begins to talk about the place and the people. Such asses as this are not worth noticing.

A great many of our citizens burnt their chimneys out the other day while the houses were covered with snow. This is a good idea which should be kept up every time it rains when needed. Remember that we have but little water and no way to fight the flames, and should fire break out during a windy time the town would be gone.

During the lecture at the college the other night some one speeded enough for it to run some ten or twelve feet in the rear end of the hall caused by an over dose of liquor. It is said that it was one of the students and that an investigation was made by the faculty last Monday but we are not told of the result. These investigations are like church trials. Outsiders never know but little about them.

The other day one of Prime Andersons negro boys got drunk, came to town and tried to talk like an Englishman for whom he had been working. His mouth was too big, and in trying to draw it up to the proper focus got it in such a fix as to cause to him have a fearful look, attracting the attention of many little boys who thought he was something that had escaped from the cage of a circus.

Last year a certain minister, not here now we are glad to say, gave Dahlonega a bad name. Compare Dahlonega with other places and see if she isn't as good morally speaking, if not better. Did you ever here of a person being knocked down and robbed in Dahlonega? Has there been a murder committed here for many years? Has any body had anything stolen from them of any consequence, except in one instance, for 20 years? It's true, that there are a number of persons here who do not belong to the church, but this does not cause them to be robbers, murderers, pickpockets and thieves.

Be sure and register if you want to vote in the city election.

When you wish a right good bargain go round to T. J. Smiths store where your wants will be supplied upon short notice.

A certain young man of Dahlonega who is not a furniture dealer, has bought a lot of chairs and other things. This means a happy couple in the near future.

All the prisoners fined during last weeks court settled up except three, who were carried off to the chain gang yesterday, being Lewis Ash, Bill Dotson and Miss Adams.

Notwithstanding Dahlonega is a "dry" town with a thriving Temperance Union a stranger bought six dollars worth of liquor—6 quarts of rye—in the place last Tuesday and treated it out to his new friends.

A house located in Mill Creek district, belonging to J. E. Blackburn, of Dahlonega, was burned by some unknown person on Sunday night last. The dwelling had been rented to a Mr. Stover, who is accused of being a revenue informer and this was done to keep him from locating there.

Last Monday one wing of A. S. Wheelchels dam, which interfered with the Gainesville and Dahlonega's Electric Railway, plant in the Chestatee river was torn away by official authority from the sheriff of Hall county and Mr. Wheelchel put under a restraining order to prevent him from doing violence to any one. The trial takes place in Gainesville Monday.

The last grand jury made a good move when it recommended that the tax receiver of this county receive no more wild lands as returns for less value than 50 cents per acre. It is not right for land sharks to buy up all the property they can secure and be allowed to return it at from 10 to 25 cents per acre, who at the same time will not sell it for less than from one to five dollars per acre.

Dr. N. F. Howard, of Dahlonega, was born near Asheville, Buncombe county, N. C., Nov. 24, 1821. Therefore if he lives until next Sunday he will be 80 years old. He has not drank anything as a beverage that will intoxicate for 60 years. Wish there were many more that could say this, but persons who have not touched liquor for 60 years are scarce, not only in Dahlonega but every where else. The Doctor is a good health and we trust that he will live many more years.

In 1892 Capt. Hall got permission from the city council to build a wall covered with iron between his property and Price & Charters office, extending out on the street some five or six feet. Now W. P. Price, Jr., who is building a store house next to this wall wants it removed. It will cost about \$25 to tear it down, and the question which seems to be a puzzle, who is going to pay the cost of removing this wall? Surely the city council will not have it done at the expense of the taxpayers, and the present owners of the Consolidated Co., of this property do not feel that it is its duty to do it after the council gave permission for it to be built. In the first place the council did wrong in granting this privilege.

Union Meeting.

The union meeting of The New Union Association will convene with the Oak Grove church on Friday before the 4th Sunday in November at 11 a. m., and continue through Sunday.

The introductory sermon will be preached by Rev. R. D. DeWeese at 11 a. m. After which organization will take place and fix hours of meeting and adjournment.

1. How does a church suffer from failure to administer gospel discipline?
2. What is the duty of pastor to church, and church to pastor?
3. What is the gospel qualification for admittance to church membership. J. E. BLACKBURN, Chm. EX. Com.

Mining Notes.

No rain yet, which causes all the miners to be a little impatient.

Five stamps of the Hand mill have been running for some time on very good ore taken from the tunnel.

Down on the Geo. A. Gordon property Henry Roberts was expected to get his little mill running by the middle of the week and we guess by this time it is about ready to commence crushing some of the valuable ore from the vein which Mr. Roberts discovered many years ago.

Mr. Wharton was in the city last Saturday with another lump of gold made down at the Calhoun by Jake Loggins and others. Their claim up is no secrets for they are so good that the owner can afford to show them to anybody without any embarrassment whatever.

By request we made out a list of the mines, including the dredge boats in operation in Lumpkin county last week and sent it to a government official, neighboring fifteen besides several others that are expected to start up soon. This proves that the mining business is not dull in this section by any means.

Work still continues up on Cayenders Creek. A little five stamp mill is kept busy in aiding them in their development work, and we understand that the prospects are so good that they feel perfectly safe in putting up two other stamp mills at different places on their property, which is anticipated in the near future.

A rich vein was struck on Capt. R. K. Reaves property—the Lord in White county—out at Mr. Courtenays last Friday evening out of which much gold has already been taken and the probability is they are "in the swim" again for another few thousand dollars. We wish them good luck, and a whole lot of it.—Cleveland Courier.

Things are moving along at the Singleton or Standard about as usual, saving about all the gold that is put into the mill, which is good, and would pay well if their big expensive shaft does not eat up all the profits. It takes a heap of money to cut shafts and where a gold mine can be worked without them it is much more profitable to the owners.

A couple of gentlemen representing the Georgia Dredging Company were in the city a few days since in the interest of the company. This company has options on the Etawah river, bed from near the Charles mine in Cherokee county to R. Palmours mill in Dawson county covering a distance of several miles, which property they contemplate active operations on by dredge boat right away. Gold abounds in great quantities in this territory and we predict great success for the enterprise.—Dawsonville Advertiser.

The following letter from a gentleman in Brooklyn, New York, explains itself: "I would like a line or two from you about The Crown Mountain G. M. Co., of your place, your personal opinion of their prospects, what the stock is selling for, &c., &c., and if the putting of the Consolidated Co. into receivers hands affected the other mines adversely." Reply: As stated before our public and personal opinions are the same. We do not print one way about the mines and write letters another. The Consolidated has never been placed in receivers hands, but the mistakes it made injured the mining industry of this section for a while but the success being made by Crown Mountain Co. will soon overcome all this. This company has no treasury stock now. The last stock went for \$75. We have the utmost confidence in the success of this Company for it has a good mine, one that is paying. The partial clean ups have already proved this fact. The plates at the mill now with only a few days run are a pretty sight and very interesting to all spectators who visit the mine.

F. W. WISEY, T. C.

Experience of Two Boys.

A country boy went to visit with his cousin in the city and enjoy a couple weeks of urban life. The lad for the rural districts soon discovered that the pace was a trifle swift in the town thought he did his best to stay with the procession. The first day he came within one of being run over by a street car and the day following the horse cart was making a run for a fire missed him by a scratch. He was persuaded by his cousin to take a ride in a lightning elevator that jerked him up 20 stories in about two seconds by the stop watch. His cousin laughed to see the boy from the country gasp as the elevator shot up and got pale when the elevator started down for it seemed when the elevator dropped down that the bottom had dropped out of things. The first week the country boy was in the city he ate so much candy and so many nuts and truck that he was not accustomed to that he had a spell of indigestion and for two days he was sick as a dog. On the whole of the city experience was decidedly wearing on the boy from the country, and when he came home his mother declared that she had never seen him look peaked in his life. The country boy felt that he hadn't made much of a record in the city; in fact, it seemed to him that really he hadn't made a record at all; they had dropped the flag on him before he had got around the last turn of the track.

The next summer the city cousin came out to visit the boy in the country and right there was where the country lad played even. He took the city-boy out to the orchard and they both filled up on green apples. That night they had to send seven miles for a doctor for the boy from the city, but the country boy slept from dark till daylight without a break. He was accustomed to the green apple diet. When the city boy got able to run around again the country lad told him he knew where there was a bumblebee's nest and they would whip the bees and get the honey. During the course of the battle the city boy who did not understand the tactics of the bumblebee, got stung seven times and came to the house with both eyes closed for repairs and flaps swelled so that he had to stand on tiptoe to see over them, but the country boy, who understood his business, never got a sting.

The next day the city boy rode a horse five miles, helping his cousin drive cattle. When he got off his horse he was so sore he couldn't sit down, but the country boy, was used to riding horses that way, wasn't sore a bit. The second week of the city boy's visit he went hunting in the woods and sat down to rest on some poison ivy. The next day he couldn't see no more than a day old kitten and his face felt as if it was policed with a cushion filled with red hot needles. The country boy knew all about ivy and steered clear of it.

At the end of two weeks the city boy was right badly bunged up and ready to go home, and the country boy musingly said as he bid his cousin goodbye: "These city kids don't seem to be any swifter in the country than I wuz in town."

Most people appear green when they go up against something they are not accustomed to.—The Missouri Valley Farmer.

Keep your eye on Dahlonega for it is going to be one of the biggest trading points in all this whole upper country.

Moralities.

Some people consider it strange that any man or woman should hope for success by resort to deception or sharp practice. It is written in the very constitution of things that ultimate failure is the portion of all such. A man has a lottery ticket and wins the capital prize. He has beggared himself. His subsequent career is one of misery. (Begin to inquire among your acquaintances and see if the statement will not bear analysis as the exact truth. A woman gives her hand and not her heart, and she is never free from temptation. A man rises in the political world through sharp practice, and the honors he is supposed to enjoy are as dead sea apples. Another man lays the foundation of his fortune to fraud, and the money he possesses proves it a curse to his children. There is no getting away from the moralities—they pursue us day and night from year to year. The "thou shalt not" of the decalogue are unrepeatable—they represent the Eternal. Stand on any street corner and note their infallible working. The sins of the fathers are written in the faces of the children. The men and the women who pass that way are paying the penalty of intractable law. It is an old and neglected book, that Bible of yours, but take it down this morning and turn to that twenty-eighth chapter of Exodus and note the things written on the tables of stone. Failure to observe these things are responsible for your resort to sharp practices and consequent unrest. And try as you may, there is no way of escape—the things there written have been vindicated through the centuries. All the squalor that we see—all the cruelty that we discern, came as the direct result of failure to observe the things commanded there in that twentieth chapter of Exodus. Men may deny God—they may scoff at religion—they may deride the Bible, but they can't escape the penalty of violated law. And this particular law—this one that Moses brought down from the mount—asserts itself constantly; it never stands repealed. Challenge any one of the ten commandments and it will ring clear and emphatic in condemnation of wrong—of deception—of sharp practice. Then note in the circle of your acquaintance how quivering are its workings—how transgression brings misery and sorrow and recklessness and destruction. Run back over your experience and note, how every infraction brought on you trouble and distress. "Every moth learns for itself that the candle burns." And every individual is made aware of the fact that this is a universe of law, and he must either conform himself to the constitution of things or take the hot end of the poker. Right and wrong are not interchangeable at the will of the individual. The moralities are for all time and for all people.—Brenham Banner.

At the last term of White Superior Court a man was returned to the grand jury who had killed a deer during the forbidden months and had to pay \$20 for it. This should be a warning to those persons in Lumpkin county who kill all kinds of birds at any season of the year.

You may notice it wherever you go and the home that is supplied with a spinning wheel instead of an organ the girls of that household are more healthy and everything about the place denotes prosperity.

A Parable of a Successful Merchant.

And it came to pass that in those days a certain merchant, doing business in the city, after he had advertised his goods in the newspapers, there came unto him great multitudes of people from all the region round about, and they did buy from him abundantly, keeping him and his clerks busy far into the night, even until the eleventh hour.

And that merchant grew exceedingly rich, having accumulated unto himself much gold and silver. And his competitors, seeing these things, marvelled greatly at his success; and they spake one to another, saying: "How be it that this man, who keepeth no better goods than we do, is kept busy all day long selling merchandise and goods to divers persons, while we do nothing but loaf about our doors?"

And the merchant hearing them murmuring among themselves, rebuked them saying: "O ye of little faith! Why murmur ye among yourselves, and why stand ye here idle all day long? Know ye not that a candle set under a bushel giveth no light. Let your light shine."

"For verily, verily, I say unto you, that in this day of push and hustle man seeketh the place to spend his shekels where he receiveth the best bargains; it is easier for a camel to go through the eye of a needle than for a business man to prosper without advertising."

And the merchants were astonished at his saying, for he spake as having great knowledge, and they turned away sorrowful, for they were close fitted and stung, likewise exceeding short sighted, since they were not like unto a man that would seek to reap without sowing, that he might save the cost of seed.—Griffin News.

Rev. Irl R. Hicks is Not Dead.

Notwithstanding a widely current rumor that the Rev. Irl R. Hicks was dead, he never was in better health, and never did a harder and more successful year's work than that just closing. He has just completed his large and splendid Almanac for 1902 and, with his staff of able helpers, has brought his Journal, Word and Works, justly forward into international reputation. For a quarter of a century, Mr. Hicks has grown in reputation and usefulness as the people's astronomer, and forecaster of storms and the character of coming seasons. Never were his weather forecasts so sought after as now, his timely warning of a serious drought this year having saved the people from loss and suffering. Millions of bushels of wheat were harvested through his advice to plant crops that would mature early. The American people will certainly stand by Prof. Hicks, when it cost them so little and the benefits are so great. His fine almanac of 200 pages is only 25c, and his splendid family journal is only one dollar a year including the Almanac. Send to Word and Works Pub. Co., 2201 Locust St., St. Louis, Mo.

The boy who is never satisfied with his job, and is always looking for a "soft snap" will never amount to much. He is just simply cultivating a habit that will hold his nose down to the grindstone in after years. No dependence can be put in such a character, his work is only half way done and he will always be looking for employment without a dollar in his pocket.

THE NUGGET.

DAHLONEGA, NOV. 29, 1901.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

The cattle raisers of White County have organized a Cattle Growers Association.

Roosevelt has appointed two negro justices of the peace in Washington City.

P. M. Parker has been nominated as the most suitable candidate for mayor of Gainesville.

A negro killed another at Charlotte, N. C., the other day because he wouldn't give him a cigarette.

The recent state fair at Savannah was a great success every way except financially. It failed to pay and the stockholders who subscribed about \$30,000 will not get anything.

We are in receipt of a nice map of Georgia sent us by O. B. Stevens Commissioner of Agriculture. It contains the population of the cities, towns and counties which makes it a map of unusual interest.

It may be that no one but physicians will be allowed to hold the office of coroner in Georgia, as a bill is being prepared by a committee of the Macon Medical Society for the consideration of the legislature.

We see from our exchanges that Col. Estill is gaining ground for governor every day. In visiting different parts of the state he has gathered friends like a rolling ball of snow, who are going to stick to him.

The gold mill building, dwelling and other near-by houses with their contents at the Owl Hollow gold mine in Cherokee county, were totally destroyed by fire one night last week. The fire originated from a defective flue.

Frank Bell, a former resident of White county, was robbed of over eleven hundred dollars in New York last week. Since then he has returned to his relatives in Gainesville after an absence of six years to spend Christmas.

Editor Johnson, of the Ellijay Times, modestly remarks: "If you see a blue mark on this paper looking like a zigzag streak of greased lightning, it means we still love you, but we want you to reciprocate our love by presenting us with a feather from Uncle Sam's Eagle!"

A special from Guthrie, O. T., says: Notwithstanding the announcement of United States Attorney Horace Speed that he will have the homestead entry of every man who makes an attempt to eject a colored homesteader from his claim canceled, more than 100 colored homesteaders have been run out of the country.

The Secretary of the interior has been asked by the homesteaders in the Kiowa and Comanche country to decide whether or not their homestead entries, which conflict with alleged mining districts therein, will be recognized. The decision will affect 1,000 homesteads in the vicinity of the Wichita mountains, where the farmer and miner have come together.

Col. Estill is a self-made man. He started in life a poor boy, with a little newspaper not bigger than the Courier. He labored hard, and worked night and day, climbing by degrees, always having the confidence of his people, and, finally, success crowned his efforts, and it is today he is a millionaire, it is because of his earnestness and hard work, and he is always in the lead in enterprise of charity and good works of all kinds, and after his speech at the dinner, no wonder that Mr. Cabiness offered a toast to the next Governor of Georgia, and it was loudly cheered by the large crowd present, although Mrs. Myrick suggested that if Hon. Pope Brown was Governor he would be good a one as you could get, but he won't run—Clarke County Courier.

Mining Notes.

The Lumpkin mine is showing up well. New veins were discovered last week that show gold nicely.

We can't see why some of our northern friends will insist on sinking deep expensive shafts in search of gold ore here when there is plenty of pay ore right in sight.

At the Hand they have a small force of hands engaged in the big tunnel and are now going down on one of the veins after the old style of mining, the foreman on each shift working like the rest.

Fate Johnson and two or three others are still mining on Cane Creek on R. W. Walker's property, where they have been engaged ever since the early part of the spring making good money. Mr. Johnson says that it is one of the best deposit mines in this country.

The Wynn process of saving gold is attracting much attention in Colorado. It is claimed that it saves more gold than was ever reported by the Hix process. Although we have but little confidence in any of the new gold savers we will publish a full report of it next week and our readers can judge for themselves.

It was believed awhile that the dam at the Barlow would be rebuilt, the mill repaired and operations resumed at this well known splendid mine by the Consolidated Co., but we understand that Geo. A. Gordon, who owns the adjoining mining property above refuses to let the water be backed upon his land any more. So we don't know what they mean to do about it.

Mr. Hager, who is operating a dredge boat in the Chestatee river near New Bridge, was in the city last Wednesday paying up the rent gold to the owners or agent of owners of the property on which he has been working. He had with him a mint certificate for gold he had made during the month of October amounting to 1,000. In three or four days recently he cleaned up about 1,100 penny-weights.

Judge Shope, Dr. Cravens, Mr. Disney and other members of the Dahlonega Gold Mining and Milling Co., organized in this county some time ago, have been down from the north viewing the gold fields again with the expectation, it is said of purchasing the Briar Patch mining property and beginning work. Later—the deed to the property has been made to these gentlemen who will reorganize and begin operation right away and if properly managed it will give profitable results.

When the proposed water power is developed up on the Chestatee river and property owners can be supplied it will enable them to open up a new mining field in and entirely through Crumby's district, which will no doubt prove to be very rich. No longer than last week we were shown by a gentleman quite a lot of gold—some of the nuggets weighing a pennyweight—found by the owner accidentally and unexpectedly on some of his property up there while engaged in other work, little dreaming that he possessed a gold mine.

Work in the Tahloneka shaft and the Singleton mill and property, now owned by the Standard Co., suspended last Monday, until Mr. Breyman tests another new gold saving machines which is on its way here now. Then if it is a success work will be resumed. If they would dispense with all these experiments with new so called gold saving machines, dig less shafts that cost \$50 per foot and let a man who understands it be boss of his own job and not dictated to by two or three high salaried superintendents having no mining knowledge, then they would make money. J. F. Moore made this mine profitable. Why can't others? For the simple reason given.

During last summer old Uncle Tom Edwards, residing in this county, who mined many years ago, told one of his friends, Fate

Johnson, that he could show him a rich deposit mine down on Cane Creek. An agreement was entered into and the old man who had not struck a lick in the mines for more than thirty years, went and stuck his stick down and the men commenced work and in a short time, within three feet of the stick, struck the place. We give this simply to show that it is very beneficial to have the knowledge of experienced men acquainted with the property proposed to be worked. It might have cost a stranger a thousand dollars or more to discover it.

The lot 810 mine, recently named Grace, still continues, to produce much splendid ore. We saw a rock on Friday that came out of the cut, 60 feet below the surface speckled with gold, and big specks that could be seen without the use of any magnifying glasses. And the beauty of this is not the only vein on the property. Really it is a 40 acre gold mine. Fifty-two distinct gold bearing veins have already been discovered on it, insuring Mr. Hutchins, the operator, success in his operations as he has the most experienced miners employed who are perfectly familiar with this property. We had the pleasure of seeing last week clean up which enables us to say that it was really a big nice lump of gold.

Every thing is moving along at Crown Mountain as well as could be expected considering the severe drought. Another Huntington mill is being received. The large cement vein in the Preacher out is good, and Crown Mountain cut is showing up nicely. If we had no other evidence, the broad smile and general good humor of the manager and those interested in Crown Mountain, would be sufficient to convince us that "things were going their way." But we have other evidences. We were shown Monday and actually felt up of the plates of the stamp mill. If we had ever had any doubts this would have removed them. We have never had any, nor indeed has any one who is acquainted with the property and watched its careful but business-like management. When we consider the necessary dead work that has been done, the annoyances and delays incident to installing a new plant together with the extreme low water, the lowest for years, which has prevented the plant being run on full time, to more than pay necessary expenses, is truly marvelous. We are informed, that while the saprolite has been reached in the Preacher and Crown Mountain cuts, the best of it is yet to come. This success will soon attract men who wish to make money by legitimate mining and Lumpkin county will become one of the great mining centers of the country.

Four hundred dollars reward for the capture of James L. Doughlass, alleged evangelist, wanted for the desertion of his wife, who was Miss Grace George, of Lithuania, has been increased to \$400. Doughlass is wanted for bigamy, larceny, obtaining money under false pretences and other charges, and it is believed that he will be located within the next few days.

"The South Carolina and Interstate and West Indian Exposition will be held in the city of Charleston from December 1st, 1901, to June 1st, 1902. There is no place on this continent where the climatic conditions are so favorable for a Mid-Winter Exposition. Out-of-door life in Charleston during the winter season is a perpetual life. Flowers bloom in the open gardens throughout the year, and a bowl of roses on the Christmas dinner table is not an unusual sight.

Visit the Exposition and Travel via the G. J. & S. and Georgia Roads. Short Line! Quick Time! Low Rates! For further information call on local Agents or Samuel C. Donlap, Gainesville, Ga.

A bill has been introduced in the present Georgia legislature to give W. A. Harris, an old negro a pension of \$80 per year the rest of his life because he acted as the body guard of Col. W. W. White of the Seventh Georgia regiment of the confederate army. There are many poor needy widows in Georgia to day whose husbands fought bravely at the front who have been refused that are much more entitled to some of the states money than this old negro.

Tom Elliott, that clever, whole souled, wide awake commercial drummer, who has been selling our merchants goods for many years made his last trip to Dahlonega this week. He will visit railroad towns hereafter and another man will take his place on this circuit.

Repairing Neatly Done

Never thought of such a sign for a medicine did you? Well, it's a good sign for Scott's Emulsion. The body has to be repaired like other things and Scott's Emulsion is the medicine that does it.

These poor bodies wear out from worry, from over-work, from disease. They get thin and weak. Some of the new ones are not well made—and all of the old ones are racked from long usage.

Scott's Emulsion fixes all kinds. It does the work both inside and out. It makes soft bones hard, thin blood red, weak lungs strong, hollow places full. Only the best materials are used in the patching and the patches don't show through the new glow of health.

No one hes to wait his turn. You can do it yourself—you and the bottle.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample. SCOTT & BOWNE, 307 Pearl St., New York. 5c. and \$1. all druggists.

Asthma Cure Free!

Asthma! no Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. WRITE YOUR NAME AND ADDRESS PLAINLY.

There is no thing like Asthma! Cure. It brings instant relief, even in the worst cases. It cures when all else fails. The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthma! Cure received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was always a slave, chained with painful sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had over-spoken yourselves, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full size bottle."

Rev. Dr. Morris Wechsler, Rabbi of the Cong. Bnai Israel, New York, Jan. 3, 1901. DR. TAFT BROS. MEDICINE CO., Gentlemen: Your Asthma! Cure is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful. After having it carefully analyzed, we can state that Asthma! Cure contains no opium, morphine, chloroform or other. Very truly yours, REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y., Feb. 1, 1901.

DR. TAFT BROS. MEDICINE CO., Gentlemen: I write this testimony from a sense of duty, having tested the wonderful effect of your Asthma! Cure for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I changed to see your sign upon your windows on 130th Street, New York. I at once obtained a bottle of Asthma! Cure. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease. Yours respectfully, O. L. PHILLIPS, M. D.

DR. TAFT BROS. MEDICINE CO., Gentlemen: I was troubled with asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a grin. I found relief at once. I have now purchased your full size bottle, and I am very grateful. I have family of four children and for six years was unable to work. Your testimony you can make such use of as you see fit. Home address, 235 Rivington St., S. RAPHAEL, 67 East 129th St., City.

TRIAL BOTTLE ABSOLUTELY SENT FREE ON RECEIPT OF POSTAL.

Do not delay. Write at once, addressing DR. TAFT BROS. MEDICINE CO., 79 East 130th Street, N. Y. City.

ADMINISTRATOR'S SALE.

Georgia, Lumpkin County. By virtue of an order of the court of Ordinary of the county aforesaid, granted at the November Term 1901 of said court, will be sold before the court house door in the town of Dahlonega, within the legal hours of sale, on the first Tuesday in December, 1901, the following property, to-wit: The undivided one-fourth of the mineral interest and to lot of land number 578, in the 15th district and 1st section of Lumpkin county, Georgia, to be sold as the property of J. M. Head, deceased, for the purpose of paying the debts of said deceased and for the purpose of distribution among the heirs at law of said deceased. This November 14th, 1901. T. M. HEAD, Adminr. of J. M. HEAD, deceased.

Partition of realty J. B. Clements vs. D. H. B. Hooper. In Lumpkin Superior Court October Term 1901. adjourned Term 1902. You are hereby notified that the above named plaintiffs have applied to the Superior Court of said county for partition of lot of land number 147 in the Eleventh District of Lumpkin County, Georgia, and that said application will be heard by the judge of said court at Chambers, Dawsonville, Georgia, on Tuesday, February 14th, 1902, at which time and place you are commanded to be and appear to show cause why partition should not be granted as prayed for. Witness the honor of J. B. Estes, judge of said Court, This November 18th, 1901. JOHNS H. MOORE, Clerk.

Is your house insured? If not, why not?

Nice cream cheese at Paul E. Castleberry & Co's for 17 cents per pound.

The revenue officials got the still last week which has been in operation near Squire Waldens for some time.

Prof. Stewart represents the strongest companies in America, so you will be sure to get what is due if a fire comes.

Ten dollars reward for any person selling gold from the Calhoun mine in this state.

S. M. WHORTON.

Mrs. J. W. Wallace left last week for a short visit to relatives and friends in Cherokee county. Her husband joined her Tuesday.

A young man was so deeply interested in the NUGGET on Thursday evening of last week that he sat and read it at praimetting while the minister was talking about religion.

Pistols are very dangerous things to handle, more especially when they are stolen. Last week a young man went to serve a twelve months sentence in the chain gang for stealing one which was valued at only one dollar and fifty cents.

We don't suppose that either one of the churches have decided to have a Christmas tree yet as there is no increase in the attendance so far that we have noticed. If a tree is had presents should only be given to the pupils in regular attendance and let those who go only during the Christmas season buy theirs if they want any.

We noticed last week the appearance in our city again of Deputy Collector Rufe Henderson, of Jasper, Ga., who has been raiding in this section for the past thirteen years, with the exception of a few months. He was first appointed under the administration of President Cleveland, and on the 11 of this month he was appointed again. This shows that he makes a good officer.

One of our Texas patrons writes us as follows which shows that the NUGGET is read with interest in the Lone Star State: "Enclosed find a dollar 'William' for your paper one year. I can't get along without it. I take and read nine newspapers, magazines and professional journals and had rather be deprived of any one of them than the NUGGET for it is always full of fresh news."

There is a man residing in this county who never changes suits. When he puts on a shirt it is there to stay until it rots off. When it begins to badly decay he puts another on over it, and can at times be traced by little pieces of his old shirt dropping from the body. In this way he never catches cold. It is not because he is unable to buy clothes that makes him do this way, for he is a well to do farmer and able to get what he wants.

There are parties in Dahlonega and other places who at different times have purchased hundreds of acres of wild lands sold in Lumpkin county for its taxes at sheriff's sale but since a decision, made by the Supreme Court it is, worthless to them as they do not own it according to this decision because only one word, "unreturned" was left out of the various f. fas. It was advertised as unreturned wild lands and sold as unreturned wild lands but the f. fas. not stating this fact made an illegal sale, and the purchasers are at a loss to know what to do about it. Some of them have been paying taxes on the property for years but this does not perfect their title in the least. Col. W. P. Price, who owns more than a thousand acres of this wild land says that he is of the opinion that the best way out of it is not to return the property for taxes next year and let it be resold with the word "unreturned" added to the f. fas.

A lot of blank mortgage and other notes just printed. Come in and get a supply.

The railroad engineers have been busy this week running the line up to the public square.

It looks a little out of order for a married member of the church to be making love to a colored woman.

Dr. Lewis, who served in this district as presiding elder, has been transferred to the South Georgia Conference.

Mr. Rax is selling out and going to quit house keeping and Mrs. Rax is going on a visit to her old home in the north.

Mrs. John Hollifield, of this county, fell while going out of the door the other day and broke one her arms just above the wrist.

Grant Woody was over from Union county last Tuesday with four loads of produce. A portion of which he sold here and the rest he carried to Gainesville.

The fire last Saturday night which burnt down two stores in Gainesville should be a warning to the citizens of Dahlonega and cause them to be more careful and watchful.

A young lady just before leaving on a visit to Jefferson, Ga., this week enclosed us the following lines. "Please find money for your fearless paper to be sent to Jefferson. I enjoy reading it."

Leave your sample ore at the "Vile" or mail them to me at Dahlonega to be assayed. Don't be too economical to give up a dollar or so for an assay, colors are deceptive, assays never lie. All work guaranteed, quick returns.

WHARTON ANDERSON, Assayer.

To-day, Thursday is Thanksgiving Day and we are told by the president of the U. S. and the governor of Georgia that we must be thankful. We are, because we have about six or eight hundred pounds of meat in the pen ready to turn into pork, fifteen cents in our pocket and a promise of getting to wear a big crown in the world to come provided we act right.

The North Georgia conference, which convened at Rome, has closed and will meet in Atlanta next year. The appointments for the Gainesville, this District, as follows: L. Pierce, presiding elder, Gainesville, first church, W. F. Quillian; Myrtle street, A. A. Tiller; New Holland, and Laurel Hill, supplied by R. O. Smith; Pendergrass, J. R. Jones; Hall circuit, J. H. Farr; Flowery Branch, A. E. Sansburn; Buford, C. C. Carri; Hoschton, W. L. Singleton; Cumming, A. Lester; Winter and Slatham, J. R. Speck; Bethlehem circuit, G. P. Garry; Lawrenceville, J. A. Timmerman; Loganville, W. E. Arnold; Monroe, J. S. Bryant; Auburn circuit, E. C. Marks; Norcross circuit, S. H. Braswell, supply, Norcross and Prospect, Wallace Rogers; Duluth, F. G. Golden; Belton and Mission, S. S. Cowan; Decula, Lucian Koper, supply; Dahlonega, A. M. Pierce; Cleveland, T. H. Dillard; Nacoochee circuit, J. H. Bailey; Porter Springs mission, supply, J. N. Austie; North Lumpkin, G. J. Davis, supply. The statistical report is as follows: Local preachers, 307; members, 90,180; infants baptized, 1,108; adults baptized, 2,407; Epworth Leagues, 124; members' leagues, 4,077; Sunday school, 725; Sunday school teachers, 5,568; Sunday school scholars, 48,388; collected for widows and orphans, \$15,944; collected for missions, \$53,347, an increase of over \$5,000; paid for support presiding elders, \$10,392; of preachers in charge, \$132,044; bishops, \$2,916. Total collections for all purposes, \$228,560. There are 782 societies, 763 churches. Value of churches, \$1,003,282. Parsonages, 181; value, \$207,655. During the year 3,993 were received into the church on profession of faith and 9,966 by certificate. Good increase in all collections.

George Marlow made a visit out to Chattanooga last week.

Dr. Wheelchel visited Dawsonville last week on professional business.

The price of cotton is not near as good as the gano/lealers in the spring told our farmers it would be.

You don't have to wait more than two weeks to get important news when you are a subscriber to the NUGGET.

Don't forget that the tax collector is on his third round and will close out on the 20th day of December. Pay in due time and save cost.

J. F. Sargent is engaged in putting up a store house at his home a few miles out in the country where he expects to be able to supply his neighbors with all the goods they need.

Mr. Breyman, president of the Standard Gold Mining Co., came in last week, accompanied by his wife. Mr. Bloomer, also of Toledo, O., who has mining interests here arrived Saturday evening.

We had a little rain last Saturday morning and it looked for awhile like the long drought would be broken, but the clouds soon cleared away and water is needed by the miners as bad as ever.

B. C. Wood, who has been engaged at work making improvements on his property in this county for some time, left for his home in Florida this week where he will spend the rest of the winter as usual.

It is quite likely now that a company, in which J. F. Moore and Judge W. W. Murray are interested, will build a dam across the Chertastee river above Barden's bridge, the power to be used for various purposes.

It is said that a certain negro in Dahlonega opened up a "dispensary" on one of the streets the other night where he exchanged blockade liquor for money in a right lively manner for a short time, charging his acquaintances 50 cents per quart and strangers 80 cents.

Dahlonega's water power is attracting the attention of people both far and near. A gentleman was recently here from Havana, Cuba, who is interested in the development of water power in that far off city, gathering important information.

The girls dormitory begins to present a right nice appearance. The plasterers and painters have been at their work for several days and ere long this structure will be ready for occupancy. The contractors are doing their part well, certainly to the satisfaction of all as we have heard no grumbling in this respect at all.

Just before Reese Robinson got in jail here he organized a temperance society at Yellow Creek in Hall and was to have had regular weekly or monthly meetings, but happened to this unfortunate trouble before the first gathering was held. Now that the courts claim is made satisfactory he can go on with his temperance work.

Those persons who have been neglecting to repair their fences in Lumpkin county with the hopes that the stock law would come, had better get to work if they want to make a crop next year, for the majority of the voters have come to the conclusion that is the best for each one to keep up his own fence than have to work and split rails enough to enclose the district.

We have always contended that it is the best and cheapest in the end to patronize home industry, which we are able to prove. When the Consolidated Co. built its 120 stamp mill all the lumber for the guide posts were purchased in Chattanooga, Tenn., except two, each of those in Tennessee costing \$98. While the Crown Mountain Company purchased its timber here, bolting two pieces together, which is just as strong and durable as the other mill, and the lumber of which only cost \$1.00 per hundred feet. A big saving.

A gentleman from Indiana was up in Chertastee district last week looking at some mica property which he anticipates buying.

Col. J. H. Moore, vice president of the Crown Mountain Co., after an absence of some time, returned to Dahlonega last Sunday, accompanied by his wife.

Estrayed or Stolen—A solid red steer, smooth crop off of left ear and slit in right, and about four years old. Any information about it will be paid for by J. H. Chapman, Dahlonega, Ga.

You can't expect to trade much unless you invite customers into your place of business through the columns of the newspaper. In this way the invitation reaches hundreds of people every week, more than you could ride round and see in several months.

It is a rare thing for fodder to sell here at this season of the year for \$1.80 per hundred, nevertheless it is doing it and seems scarce at that. This proves that the farmers are prosperous this year and are not compelled to sell their products of the farm until the market gets right.

Next Wednesday will make four years we have been running the NUGGET. Many of our subscriptions run out then. Be ready to renew for we will be around to see you. A large number of our patrons have been reading the NUGGET continuously for four years and we want them to continue.

We notice that the teachers of county schools in this county still cling to the old custom of teaching on Monday and let the pupils remain at home on Saturday. It should be the same way in Dahlonega. Then the pupils could help their parents get ready for Sunday. The boys could cut wood and the girls could starch and iron. As it is, parents have to do all or hire it done. Such exercises as this would be really beneficial to them after being housed up several days.

The vacancy on the board of trustees of the N. G. A. College, caused by the death of Capt. F. W. Hall, will not be filled until the next regular annual meeting, which is some time yet. When this is done a man should be selected from Auraria or some other part of the county who will take enough interest in the institution to send his children to it. We will ask how many of the present members of the board having children large enough, do this now? The most interest taken in the college by some of the trustees now is to see how much money they can get out of it when an appropriation is made for buildings, etc.

Charlie Dukes, who is one among the prosperous farmers of Forsyth county, brought about by a dream of his wife, was in the NUGGET office one day last week. Charlie was born near Dahlonega where he remained several years after marrying, toiling hard to get a start, but failing to make much headway decided to move down into Forsyth and see if he couldn't do better in renting land and raising cotton. Some time after reaching his new home his wife dreamed one night of a rich gold mine near where they resided. The next morning she told her husband about it and insisted on his going to look for it. He paid no attention to it at first but the good lady kept on pursuing him to go and make a search. So one day when he had nothing to do he decided to go just to please his wife. Having had some experience in mining in Lumpkin county he knew how to begin. The first panful he didn't even get a color. Then he tried another and got about a pennyweight. This caused him to open his eyes wider and be more patient and careful and continued until he panned out several pennyweights. The property belonged to a widow lady, who was told by him of his discovery. She gave him permission to work it and Charlie made about a thousand dollars, enabling him to buy a good farm, and ever since that time he has been living prosperous.

Floyd Hatfield died at the pauper's home last Sunday night of consumption.

Cabbage sold at a cent and a half per pound from the wagons in Dahlonega this week.

Dahlonega has sixteen stores, all seem to be doing a successful business, especially those who advertise in the NUGGET.

The Union Meeting held at Oak Grove church last Friday was largely attended and a very interesting religious gathering.

Gora is going at 70 cents in Dahlonega and it is predicted by some that it will be \$1.00 per bushel before long, but we think not.

Lieut. Fred Price, who has been here for some weeks on a furlough visiting his relatives and friends, will leave Saturday to join his command again.

The first cross ties for the Gainesville and Dahlonega Electric Railway were brought in by "Tike" Edge and delivered to the company last Monday.

Some of the young men of Dahlonega went to Chertastee district to spend Thanksgiving to enable them to be convenient to plenty of fresh mountain dew in case they needed it to make them feel happy and more thankful.

The musical entertainment by the Quaker Male Quartet at the college chapel last Saturday evening was listened to by the large audience with much interest. Notwithstanding one of the gentlemen and a lady had contracted a severe cold while en route from Gainesville and unable to appear on the stage, the singing was the best that has ever taken place in Dahlonega.

Rev. D. M. Edwards, who used to preach in Dahlonega, has got permission from the North Georgia Conference, in other words, he is superannuated and will leave for California in a few days to see if he can get rid of that dreadful disease, consumption. Other acquaintances of ours having consumption have been benefited by going there and we trust that Mr. Edwards will also.

Last Saturday the revenue officials went out into the country and destroyed two illicit distilleries. One of them was said to be Bill Holmeans and the other is believed to be Balas, Cranes. The latter was within a quarter of a mile of Mt. Zion church in this county, and the path to the distillery was through the cemetery at that church. This is the way blockaders respect the church and the dead.

As stated last week C. T. Leland, representing the Union Street Car Co. of Philadelphia, came down and proposed to purchase the street car system and the lighting and power plant for the city of Gainesville from the Gainesville and Dahlonega Electric Railway Co. Gen. Warner, of this company refused to sever, but stated that he would sell the whole thing to him if he would carry out all the contracts of the Electric Railway Co. with the people of Gainesville, Dahlonega and those between the two points. Mr. Leland then came to Dahlonega and looked over the line and was pleased with the prospect, enough to say that he would return to Philadelphia and make a favorable report, but nothing has been heard from him since. This caused no delay in the progress of the work of the railroad or the street car system in the least. A boiler was sent from Dahlonega to the Dunlap shops last Monday. At the same time one was sent over from Chute, Ga. They will be placed on each side of the river to operate the derricks in the building of the rock dam across the Chattahoochee. Hands are now gathering the railroad this side of the river and by this time the foundation of the dam across the Chertastee has been finished to the normal water mark, and a dynamo and a water wheel for the power plant has been ordered.

Attorney Huff paid Atlanta a flying trip on business this week.

Right this way is the place to get your job work done promptly.

To-day nearly all the stores in Dahlonega are closed on account of Thanksgiving.

H. V. Maxwell has gone over in to Union county to work the Gum Log mine which he has leased.

It is reported that some parties from Dahlonega went down to Gainesville the other day and if reports are true, organized an anti temperance society.

Remember the poor, needy and distressed to-day. "This is a good way to show your Christianity. And bear the poor editor in mind by subscribing for the NUGGET and paying for it.

Our citizens should be very careful about the small pox when visiting Dawson county. It is there beyond a doubt. Dr. Kitchens has it now. At first he didn't believe that the disease was small pox, but now he does.

On and after December first, the U. S. mail will leave Dahlonega for Gainesville at 7 a.m., and will return to Dahlonega in seven hours after the train arrives and it leaves Gainesville. This will enable us to always get the morning mail from Atlanta.

To-day (Thursday) five years ago Jake Loggins and Judge Huff, our present ordinary, had something unusually good to be thankful for. They panned in the mines down at the Calhoun all day and that night had something over three hundred pennyweights of gold.

Just as are expected, thirty-eight out of the seventy inmates of the Soldiers Home in Atlanta, have petitioned the legislature to give them their pensions and let them return to their homes. We knew these old people would soon want to return to their native homes. City life does not suit them.

The injunction case of the Gainesville and Dahlonega Electric Railway vs. A. S. Wheelchel, has been postponed until the third Monday in January. This is where Mr. Wheelchel had a dam which interfered with the construction of the company's dam and it was torn down by the latter so it could proceed with the work.

West Walker, formerly of Lumpkin county but now of Glendale, Arizona, writes us that he made \$152.50 farming this year but his expenses were \$649.50, 557 tons of hay included. Farm laborers get \$1.50 per day in that country while in this county they receive only 50 cents per day and a lady who hoes as much corn as a man receives only half this amount.

James W. Deacon, of Mt. Holly, N. J., writes and enquires of certain persons who he was acquainted with while here several years ago. He takes the NUGGET but says that he has not seen the names of the parties referred to in a long time. Reply: Mrs. Hall, the mother of Capt. F. W. Hall, deceased, is now at Ingleside, within five or six miles of Atlanta, Ga. Dr. Waddell is in Marietta and we believe Prof. Witherspoon is in Atlanta, and Joseph Phillips is some where in Mexico.

Don't forget our Christmas goods are fine and up to date but the price is lower than the cheaper grades of goods are priced at any other store within one hundred miles of Dahlonega. Unless the railroad fails us we will have our full line, (except books which will arrive about the 5th), opened up and ready for show by Thursday, Dec. 5th. Remember any presents "laid aside" we consider sold and can not take them back. But we take pleasure in showing you the stuff, pricing it to you and then are willing for you to see around. Come whether you buy anything or not. B. R. MEADERS & SONS, P. S.—Will pay cash for some good mules.

Save the Cornstalks.

It is said that some people get wealthy on what other people waste. The Farm, Field and Fireside finds this saying particularly applicable to farmers in the matter of fodder saving, and it remarks:

Every one knows that cornstalks are rich in nutrition. They are particularly good for dairy stock and are profitable for cattle of all kinds and ages and for sheep. But how common a fault it is to let this nutritive fodder be wasted! Some times it is left too long in the field. The fall rains come on and the lower ends become saturated, heavy, tasteless. It is worse yet if they be left till too late in the season and the leaves become stripped off by the winds and scattered and many of the stalks trodden into the soil.

Of course, the best practice is to put the cornstalks under good shelter in sheds or barns. The next best thing is to stack them. Every farmer knows how to do this with butts outward and the stalks so built as to shed the rain. A stake in the middle is a good plan. Care should be had to have the cornstalks dry and to do the stacking on a dry, sunny day, and the sooner the stalks are cut for after harvesting the corn, the better. All these cautions will seem useless to a careful farmer, but many hundreds of our farmers never find to care for the cornstalks till too late in the fall or even till the snow flies.—Well come Guest.

Don't be Afraid to Work.

One thing keeps young men down is their fear of work. They aim to find gentled occupation, so they can dress well, and not soil their clothes, and handle things with the tips of their fingers. They do not like to get their shoulders under the wheel, and they prefer to give orders to others, or figure as masters, and let some one else do the drudgery. There is no doubt that indolence and laziness are the chief obstacles to success.

When we see a boy, who has just secured a position, take hold of everything with both hands and "throw right into his work," as if he meant to succeed, we have confidence that he will prosper. But if he stands around, and asks questions, when told to do anything; if he tells you that this, or that, belongs to some other boy to do, or it is not his work, if he does not try to carry out his order in the correct way, if he wants a thousand explanations, when asked to perform an errand, and makes his employer think that he could, have done the whole thing himself—one feels like discharging such a boy on the spot, for he is convinced that he is not cut out for success.

That boy will be cursed with mediocrity, or will be a failure.

There is no place in the century for a lazy man. He will be pushed to the wall.—Success.

Would Gladly Take It.

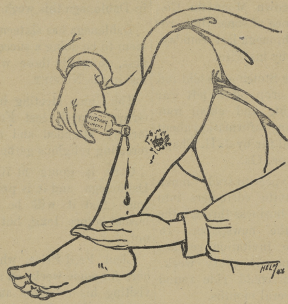

A story told us the other day—certainly told for new, but good enough to be old:

One of the recent warm days a sour-visaged, middle-aged, fussy old lady got on one of the smokers on an open car in the subway. Next to her sat a man who was smoking a cigar. More than that the lady, sniffing, easily made out that the man had been eating onions. Still more than that she had the strongest kind of a suspicion that he had been drinking beer. The lady fussed and giggled, and grew angrier, and looked at the man scornfully. Presently she could endure it no longer. She looked at him squarely and said: "If you were my husband, sir, I'd give you a dose of poison!"

The man looked at her. "If I were your husband," said he, "I'd take it!"

Two years ago Wilbur Ridgeway, colored, made his appearance at Dover, Del. He was supposed to be a deaf mute, and lived up to that rule. He was a thief and was several times arrested for petty

ON A WHEEL the rider frequently meets with disaster. A very handy and efficient doctor to have with you when an accident happens is a bottle of Mexican Mustang Liniment.

Ulcers or Running Sores

need not become a fixture upon your body. If they do it is your fault, for

MEXICAN MUSTANG LINIMENT

will thoroughly, quickly and permanently cure these afflictions. There is no guess work about it; if this liniment is used a cure will follow.

larceny, but each time, save the last, he was excused for punishment because of his affliction. Last week Ridgeway was convicted of theft and sentenced to receive thirty lashes at the whipping post.

When about five lashes had fallen upon his back he began to beg, and before he had received his thirty lashes his tongue was extremely loose. The Sheriff says he never before knew a flogging to restore the power of speech.

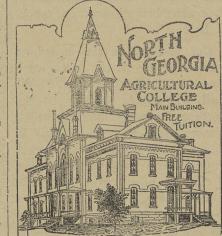

When the Crop is Laid by.

While wealth and society are flocking to the mountains and the sea the various resorts in quest of recreation, health, and pleasure, the farmer is drinking the draughts of pleasure for more sweet and lasting in its simplicity. The giddy whirl of those who throng the place of wealth and fashion, where ceaseless excitements intoxicate the brain and tends to strain the senses of pleasure beyond the normal, can never rival the genuine joy, the sweet contentment and homely happiness that comes to the farmer who has toiled through the winter's blast, the springtime's sun and rain and summer's scorching when the crop is laid by. While the balance of toiling humanity, without rest or recreation, must continue to fight the battle for bread, the farmer rests from his labors a day looks out upon his broad fields, the fruit of his industry waving and ripening in the sun, and dreams of the harvest days whose gathering in the winds up to the cycle of year. The fruit ripening on the laden trees; grapes cluster temptingly on the vines, watermelons are lying in the fields and all nature seems to have taken on spirit of the rest and fullness of the season. We may live to grow old in years, travel the world over and live over phase of life, but the time will never come that will be so complete with the fullness unplain country folks when the labor and toil are over and the crop's laid by.—Ex

The Home Newspaper.

The local newspaper should be found in every home. No children should grow up in ignorance who can be taught to appreciate the home paper. It is said to be the stepping stone to intelligence in all those matters not learned in books. Give your child a foreign paper, which contains not one word about any place, person or thing which they ever saw, or perhaps ever heard of and how could you expect them to be interested? But let them have the home

paper, and read of people that they meet and places which are familiar, and soon an interest is awakened which increases with every weekly arrival of the local paper. Thus a habit of reading is formed, and those children will read the newspapers all their lives and become intelligent men and women, a credit to their ancestors, strong in the world as it is today. Marietta Journal.

A college education is the reach of all. A. L. B. Normal and Business Man's course. Good laboratories; beautiful, inspiring environment; military discipline; good moral and religious influences. Highest standard in the South. Graduate of country produce expenses from \$25 to \$100 a year (board in dormitory). Special feature: a special course in control of the University.
